SKLAR SOAK™

INSTRUMENT PRE-SOAK & DECONTAMINANT

SKLAR SOAK is an effective pre-cleaner that breaks down bio-burden, lifting blood and other organic debris from the surface, while penetrating box locks and crevices. The rust inhibitor protects the delicate chromium oxide layer of the instrument, thus defending against rust and corrosion. Using SKLAR SOAK™ as a pre-cleaner is the first line of defense against rust, prolonging the life of the instrument and therefore protecting your investment!

SKLAR SOAK is ideal for use on all stainless steel instruments:

- PH balanced, designed specifically for stainless steel instruments.
- Intermediate level disinfectant with broad spectrum of efficacy.
- Rust resistant.
- Non-caustic.
- Ready to use.
- No special handling or disposal.
- Fragrant, no offensive odors.
- Non-glutaraldehyde.

ORDERS

- Sklar's full line of Instrument Products are available through any authorized Sklar Distributor. Contact our Customer Service Department at 800.221.2166 to locate a Sales Representative in your area.
- Customers with established accounts and in good standing are subject to Net 30 days from date of invoice. Poor credit conditions can result in denial, delay or cancellation of orders.

SHIPMENTS

- Pricing is FOB West Chester PA unless otherwise noted and may be subject to change. Shipping schedules are approximate and subject to change without notice. Same day shipping is available. Standard orders will be shipped via the carrier of Sklar's choice. Special shipping requests will be accepted but additional handling charges are applicable.
- All Sklar instruments and product are carefully inspected prior to shipment. Customers shall inspect all items upon receipt and file a claim within (10) days of receipt of shipment.

WARRANTY

- Instruments and Products are recommended for their intended use only, and require continuous and proper care. Misuse can damage instruments and products and void the warranty.
- All Sklar instruments are guaranteed to be free from defect in material and workmanship. Defective instruments may be returned for repair or replacement at no charge. Repair or replacement is at the discretion of Sklar. Warranty is void on any instrument serviced by any company other than Sklar Instrument Repair Services.
- Sklar offers a variety of supplementary surgical products. These products are held to high standards for material and craftsmanship and some are subject to a limited warranty (vary by product).
- Standard sterile kits may be returned within 30 days, provided sterility of the inner packs have not been compromised, package is unopened and resalable.
- Most cleaning products are non-returnable.

RETURNS

- A Returned Goods Authorization (RGA) number must be obtained prior to returning products to Sklar. Contact our Customer Service Department at 800.221.2166 for authorization and complete return instructions. Following an investigation, any credit, repair or replacement will be issued at Sklar's discretion.

Sklar is pleased to offer a full line of Care & Cleaning agents to disinfect, decontaminate, sterilize, lubricate and protect your stainless steel surgical instruments and equipment. For expert care of your surgical instruments at every stage of the cleaning process, trust Sklar to deliver the right cleaning agent for you.

3 EASY STEPS FOR THE CARE AND CLEANING OF YOUR INSTRUMENTS

1 DECONTAMINATION

Sklar Disinfectants are a pre-cleaner and disinfectant for the safe decontamination of soiled surgical instruments, medical and surgical equipment and inanimate surfaces including plastics, stainless steel, chrome, glass, Plexiglas and baked on painted surfaces.

Disinfectants are effective against a broad range of pathogens in as little as 2 minutes.

2 CLEANING

Sklar carries a complete line of effective detergents and enzymatics for cleaning, not only for your surgical instruments, but also metals, glassware, plastic and rubber. Available in your choice of powder, liquid concentrate or spray foams.

3 LUBRICATION

To guarantee extended life and performance of your surgical instruments, choose one of Sklar's lubricants or sprays as the final step in your instrument processing regimen. Specifically designed to protect against corrosion, rust and staining, Sklar offers several different types of lubricants to protect your investments.

SKLAR-CIDE™

HIGH LEVEL DISINFECTING/STERILIZING SOLUTION

Sporicidal • Bactericidal • Virucidal • Fungicidal

SKLAR-CIDE provides a safe and efficient means for the high-level disinfection or sterilization of medical, ophthalmic, dental and surgical devices including endoscopes and lensed instruments. It may be used as a standard soak solution or in automatic reprocessing units set at room temperature. Unlike other solutions, there is no need to increase the solution temperature to provide high-level disinfection in 25 minutes.

SKLAR-CIDE is a surfactant-free, activated glutaraldehyde liquid chemical sterilant and high-level disinfectant. Its active ingredient is glutaraldehyde in a nominal concentration of 3%. When the powdered activator is added, the solution turns green in color to indicate its readiness for use. In addition to the active ingredient, this ready-to-use solution contains buffers, wetting agents, and a rust and corrosion inhibitor and it has a pleasant fragrance.

SKLAR-CIDE produces high-level disinfection at room temperature in as little time as 25 minutes, and complete sterilization in 10 hours at room temperature.

- Reusable for 28 days instead of 14, safer and saves time and money.
- Surfactant free - Will not damage scope surfaces or cloud lenses.
- Can be used safely on all devices, including instruments and endoscopes. No need to stock several products.

KILLS MRSA AND H1N1 VIRUS

SKLAR SPRAY-ZYME™

SURGICAL INSTRUMENT PRE-CLEANER

Multi-Enzyme Based Instrument Presoak & Cleaner Foam Spray Cleaner

The newest product from Sklar for expert care of your surgical instruments. This multi-enzymatic spray creates a heavy foam which lasts for hours, keeping soiled instruments moist to avoid encrustation while also pre-cleaning prior to processing.

- Prevents Organic Encrustation - enzyme foam stops blood and bodily fluids from drying onto surgical instruments.
- No More Spills - messy spills between the operating room and central cleaning /processing department are eliminated.
- Neutral pH - safe and effective for stainless steel, tungsten carbide, aluminum and brass instruments.
- Bacteriostatic - microbiological control agents inhibit bacterial growth in the ready-to-use foam solution.
- Long Lasting Foam - saves time, foam lasts many hours after application.
- Multi-Enzymatic - contains a synergistic blend of lipase and protease enzymes.

10-2774	½ oz. Pouches	32/box

SKLAR SOAK™

INSTRUMENT PRE-SOAK & DECONTAMINANT RUST RESISTANT!

Immersing soiled instruments in SKLAR SOAK effectively pre-cleans and decontaminates, without fear of rusting!

SKLAR SOAK is an effective pre-cleaner that breaks down bio-burden, lifting blood and other organic debris from the surface, while penetrating box locks and crevices. The rust inhibitor protects the delicate chromium oxide layer of the instrument, thus defending against rust and corrosion. Using SKLAR SOAK™ as a pre-cleaner is the first line of defense against rust, prolonging the life of the instrument and therefore protecting your investment!

Soaking for only two minutes thoroughly decontaminates instruments, reducing the risk of exposure to pathogens such as N1H1, MRSA, Salmonella, Parvo, Feline Leukemia, Herpes Simplex, Distemper, Ringworm, Strangles. However, because SKLAR SOAK™ contains a rust inhibitor, instruments may soak for several hours without fear of rusting! Employees are protected from cross contamination, and at the same time can enjoy the freedom to reprocess instruments when it's convenient!

SKLAR SOAK is ideal for use on all stainless steel instruments:

- PH balanced, designed specifically for stainless steel instruments.
- Intermediate level disinfectant with broad spectrum of efficacy.
- Rust resistant.
- Non-caustic.
- Ready to use.
- No special handling or disposal.
- Fragrant, no offensive odors.
- Non-glutaraldehyde.

SKLAR INSTRU-GUARD™ ONE STEP

A "ONE STEP" INSTRUMENT CLEANER AND LUBRICANT

EXTENDS INSTRUMENT LIFE!

SKLAR INSTRU-GUARD ONE STEP contains a penetrating lubricant that protects and helps extend the life of surgical instruments. The detergents and emulsifiers quickly break up and remove organic soils from box locks and other hard to reach places.

SKLAR INSTRU-GUARD ONE STEP contains four rust inhibitors to control corrosion and eliminate scaling and spotting. It does not contain phosphates and can reduce the time and cost involved in processing your instruments by cleaning and lubricating in one easy step.

PRODUCT NUMBER	FEATURES	QUANTITIES
10-2800	1 Gallon Bottles	4/case
10-2801	1 Gallon Bottle	1 bottle

SKLAR INSTRU-GUARD™ LUBE

SURGICAL INSTRUMENT LUBRICANT / RUST INHIBITOR

- Extends the Life of Instruments.
- Protects all Surgical Instruments.

SKLAR INSTRU-GUARD LUBE is an easy-to-use, water soluble, lubricant and rust inhibitor. When used daily as a rinse after every cleaning it keeps moving parts operating smoothly and remains effective after autoclaving, but without leaving an oily residue.

Regular lubrication is essential no matter which cleaning method is employed (including ultrasonic). SKLAR INSTRU-GUARD LUBE is ideal for maintaining instrument quality and performance.

SKLAR KLEEN™

LOW FOAM, LIQUID DETERGENT AND POWDERED FORMULA

Regular Formula for Manual and Ultrasonic Cleaning

SKLAR KLEEN is non-corrosive, non aggressive, phosphate free and biodegradable. We have specifically developed SKLAR KLEEN for manual and ultrasonic cleaning. It is moderately alkaline, affording optimum cleaning without etching glassware or attacking instrument metal.

Low Foam Formula for Automatic Cleaning

The SKLAR KLEEN Low Foam Liquid is concentrated in order to provide a very cost-effective solution. It is especially formulated to maintain low foam, ensuring effective and trouble-free action in washer/sterilizers and tunnel washers. Dispersing quickly, the SKLAR KLEEN Low Foam formula is also well suited for automatic injection systems.

SKLAR-SHEEN™

AUTOCLAVE AND INSTRUMENT CLEANER AND CONDITIONER

With an efficacious phosphoric acid cleaning agent, Sklar Sheen is a robust spot, stain and rust remover. Ideal for dissolving hard water deposits, use in autoclaves to quickly cut through steam sterilizer scale and deposits.

Verstile and effective, SKLAR SHEEN couples powerful stain and rust removers with corrosion inhibitors, making it tough on stains but gentle on instruments. Recondition instruments to restore them to nearly brand new working condition.

Use to clean and recondition any stainless steel surface to its original luster, including carts, trays and basins.

- Conditions for lasting protection.
- Dissolves hard water deposits.
- Frees up frozen box locks.
- Restores and extends surgical instrument life.

PRODUCT NUMBER	FEATURES	QUANTITIES
10-2730	Stain & Rust Remover	1 gallon bottle

SKLAR ENZYMATIC™ DETERGENT

MULTI-ENZYME DETERGENT CONCENTRATE

100% Biodegradable

SKLAR ENZYMATIC Detergent is a low-foaming, fast acting detergent specifically designed for use when instruments and/or cloth materials become soiled with organic debris.

SKLAR ENZYMATIC Detergent may be used as a manual instrument cleaner as well as a pre-soak for blood-contaminated linens, clothing and instruments. It is also used in ultrasonic units and in washer/sterilizer/decontaminators. When used as directed, the enzymatic pH neutral formula is safe for use on rubber, plastic, stainless steel instruments, and surgical equipment as well as cloth.

PRODUCT NUMBER	FEATURES	QUANTITIES
10-2777	1 Gallon Bottles	4/case
10-2775	1 Gallon Bottles	2/case
10-2776	1 Gallon Bottle	1 bottle

SKLAR STAT™

INSTANT FOAM HAND SANITIZER

KILLS 99% OF GERMS IN LESS THAN 15 SECONDS!

SKLAR-STAT Instant Foam Hand Sanitizer, based on the active ingredient Benzalkonium Chloride, is a unique formulation featuring exceptional skin feel, conditioning and moisturizing properties. The efficacy of this product has been confirmed to reduce *S. Aureus* 99.999% and *S. Aureus* MRSA 99.9% in as little as 15 seconds. SKLAR-STAT Instant Foaming Hand Sanitizer produces a fast drying, non-sticky foam that contains unique conditioning and moisturizing ingredients, leaving the skin with a soft, silky after-feel.

TROUBLE SHOOTING

NO STEEL IS TRULY "STAINLESS"

It's a fact that so-called stainless steel is subject to both water-spotting and staining. However what many people identify as a "rust" problem usually turns out to be something else.

Most often the problem is actually a stain caused by a surface deposit. These deposits appear in a variety of colors depending upon the type of deposit involved. Once the cause is found and eliminated, most of the time the problem quickly diminishes or disappears completely.

As you probably know, stainless steel is ideally suited for the surgical suite because it is rust resistant, it can be honed to an extremely sharp edge or fine point,

and it can be hardened to maintain the delicate, yet precise, requirements of the surgeon. But it is this hardenable quality – the amount of carbon used during the manufacturing process – coupled with harsh chemicals and improper care that renders stainless steel susceptible to corrosion.

To protect your instrument investment, Sklar cleaning agents have been specifically formulated to provide cost effective instrument care solutions that help maintain the life and performance of your valuable stainless steel instruments.

TROUBLE SHOOTING

CORROSION

- Problem:** Debris and residue in box locks, serrations and ratchets.
- Solution:** Serrations, box locks and ratchets should be carefully cleaned and rinsed. A soft bristle brush is effective in these difficult areas.
- Problem:** Moisture remaining on the instruments within the sterile wrapped packs; excessive moisture in autoclave during sterilization and termination of cycle.
- Solution:** Preheat autoclave, drying time cannot be accelerated, open autoclave door slightly. Routinely inspect valves. Malfunctioning valves can precipitate corrosion.
- Problem:** Some local water supplies contain excessive quantities of alkali. This can manifest itself by depositing corrosive matter on the instruments.
- Solution:** It is generally accepted that cold distilled or demineralized water be used during sterilization. An alternative is to use the local water supply, while instituting a program of preventive maintenance. Carefully clean surfaces with SKLAR KLEEN™, using SKLAR POLISH™ to remove difficult stains and SKLAR LUBE™ for proper lubrication.

PITTING

- Problem:** Instruments are inevitably exposed to chemical compounds that initiate pitting. The most common are saline solutions and blood.
- Solution:** It is essential that instruments be rinsed with distilled or demineralized water and then cleaned routinely.
- Problem:** Some Non-Sklar detergents contain a chloride or have an acid base. If rinsing is not thorough, the residual detergent can precipitate pitting. Hydrochloric acid can be formed by the combination of chloride in the cleaner and steam, causing the instrument to pit.
- Solution:** Evaluate detergents without a chloride base. SKLAR KLEEN™ is recommended.
- Problem:** Instruments may be pitted when the detergent used has an excessively high pH. If instruments are not rinsed thoroughly and then autoclaved, the heat increases the effect of the solution on the instruments.
- Solution:** Use only detergents specifically developed for instrument cleaning. SKLAR KLEEN™ products are pH balanced.

BROWNISH STAIN

- Problem:** This stain is more obvious on dull finish instruments. Most likely, it is a deposit of chromium oxide. The thin hard layer protects stainless steel from corrosion precipitated by the atmosphere. The brownish film (sometimes dull blue) occurs naturally when stainless is heated. Occasionally this stain can be traced to the sterilizer. Improper cleaning compounds could contain poly phosphates that cause the copper components in the sterilizer to be deposited by electrolytic action on the stainless steel instruments.
- Solution:** Water supply to autoclave should be cold and demineralized. Use the correct amount of SKLAR KLEEN™ as recommended for best results.

BLUISH GRAY STAINS

- Problem:** Cold sterilizing solutions.
- Solution:** In the preparation of the solution make certain the manufacturer's directions are followed accurately. To minimize discoloration use distilled water and add a rust inhibitor. Using the solution beyond recommended time limitations will cause the solution to become corrosive.

RUST DEPOSIT

- Problem:** Sterilizing instruments of different metals in the same cycle will cause rusting. An electrolytic action carries the carbon particles from the exposed metal and deposits them on the stainless steel instruments. The rapid oxidation of molecules results in a surface film of rust.
- Solution:** The ideal technique would be to sterilize the two types of instruments separately. It is recommended that chrome plated instruments that indicate signs of peeling or flaking be replaced with stainless steel instruments.
- Problem:** The rust film on the surface of stainless steel instruments can be caused by chemicals in the detergent. Excess amounts of iron or other minerals from the local water supply may cause the rust deposits.
- Solution:** It is recommended that instruments be rinsed with distilled or demineralized water. Surface rust can be removed by light buffing or an application of SKLAR POLISH™.

LIGHT AND DARK COLORED SPOTS

- Problem:** Spotting caused by slow evaporation of water drops identified with the mineral content of the water.
- Solution:** Eliminate water droplets by adhering to autoclave manufacturer's operating instructions. Autoclave door should not be opened until steam has been completely vented.

Scissors

Sklar Edge™ Tungsten Carbide

Sklar Edge scissors are manufactured using a Sklar Exclusive edging process that permanently bonds tungsten carbide to the scissor blades. Tungsten carbide is an extremely hard alloy that provides an exceptionally strong and sharper edge while maintaining a Sklar 5-year guarantee of durability. These perfectly balanced scissors are readily identified by the dual gold finger rings.

Supercut Sklar Edge™ Tungsten Carbide SklarHone™

Supercut Sklar Edge Tungsten Carbide SklarHone Scissors combine all the advantages of tungsten carbide with the precision performance of Supercut SklarHone blades, featuring the razor sharp cutting edge of a knife on one blade and micro-serrations on the other. Easily identified with one gold handle and one black handle.

Premium

Sklar is proud to offer a full line of Premium instruments that have been modified to meet the needs of clinicians for specific procedures. Choose from a wide variety of the most popular patterns.

Supercut SklarHone™

SklarHone scissors feature a razor-like edge of a surgical knife on the upper blade designed to cut through tissue effortlessly. Combine with a micro-serrated (Supercut) lower blade to hold tissue and prevent slippage or a smooth, standard edge lower blade for a smooth, clean cutting action. SklarHone scissors are distinctively identified by their dual black handles.

SklarCut™

SklarCut improves the design and function of your most frequently used surgical instruments with the addition of ultra-fine serrations on one blade. This premium feature provides additional surgical control by holding the tissue while cutting more cleanly and with greater precision. SklarCut scissors are easily identified by the gold finger ring on the serrated blade handle.

SklarLite™ / SklarLite XD™

SklarLite premium scissors provide the clinician a lighter pattern, minimizing fatigue during prolonged procedures. A comfortable instrument that withstands the rigors of frequent use while retaining its structural integrity. SklarLite XD extra delicate scissors provide the most sensitive surgical tool as well as our lightest pattern with surprising strength. SklarLite and SklarLite XD are fully guaranteed for a lifetime of dependable use.

General Surgery Instruments

Our very best operating room, high quality instruments incorporating optimum grades of German grade surgical steel, finely detailed craftsmanship and exacting standards of manufacturing. Choose from a full line of the most popular patterns.

Surgi-OR™ Instruments

A Mid-Grade line of high-quality OR instruments, hand-crafted and forged from Japanese surgical grade stainless steel. This cost-effective line of instruments offers significant value to the Operating Room as well as other important surgical settings.

Econo™ Sterile Instruments

Econo Sterile instruments are suitable in a number of surgical venues where economical choice with reliable performance is most important. Convenient, ready-to-use sterile instruments provide the very best value with the greatest utility of any surgical instrument.

Z-TYPE SCISSORS

Sklar's Z-Type Hysterectomy/Parametrium Scissors are specifically designed to ideally meet the surgeon's needs during abdominal procedures. Manufactured from German grade stainless steel and under the highest quality standards, these specialized instruments provide uncompromised balance, feel and performance. With solid Tungsten Carbide inserts, Z-Type Scissors have extremely sharp, strong and precise cutting edges with lasting durability, and are specifically formed to cut tissue laterally.

PRODUCT NUMBER		DESCRIPTION
16-4000	9"	Z-Type Parametrium Scissors, Slight Curve
16-4001	9"	Z-Type Parametrium Scissors, Curved
16-4002	9"	Z-Type Parametrium Scissors, Full Curve

16-4009	12"	Z-Type Parametrium Scissors, Curved
16-4010	12"	Z-Type Parametrium Scissors, Full Curve
16-4012	14"	Z-Type Parametrium Scissors, Slight Curve
16-4013	14"	Z-Type Parametrium Scissors, Curved
16-4014	14"	Z-Type Parametrium Scissors, Full Curve

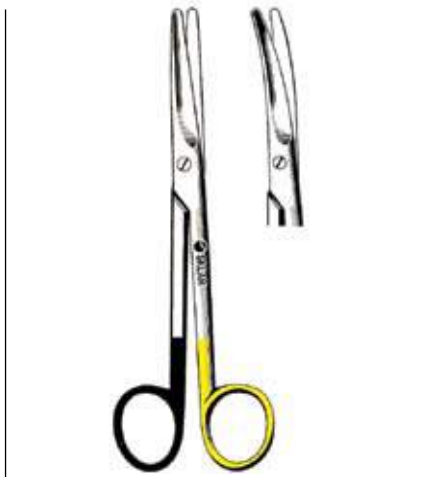

SUPERCUT SKLAR EDGE™ TUNGSTEN CARBIDE SKLARHONE™ scissors combine all the advantages of durable tungsten carbide with the precision performance of Supercut SklarHone™ blades, featuring the razor sharp cutting edge of a knife on one blade and micro-serrations on the other. Easily identified with one gold handle and one black handle.

SKLAR INSTRU-GUARD™ LUBE

Sklar Instru-Guard Lube is an easy-to-use, water soluble, lubricant and rust inhibitor. When used daily as a rinse after every cleaning it keeps moving parts operating smoothly and remains effective after autoclaving, but without leaving an oily residue.

Regular lubrication is essential no matter which cleaning method is employed (including ultrasonic). Sklar Instru-Guard Lube is ideal for maintaining instrument quality and performance.

Forceps

Tungsten Carbide

Sklar TC Forceps utilize solid tungsten carbide insert jaws for long-lasting, positive holding power beyond that of any standard instrument. Sklar TC Forceps use this special non-slip tissue gripping profile to enable the user to apply exact pressure for proper tissue handling and suture tying, with exceptional control that reduces trauma. These precisely ground forceps are readily identified by the gold handles.

Premium

Sklarlite™

Premium Forceps have been reduced in their overall pattern weight while maintaining the strength and durability of a standard pattern. The result is a noticeably lighter, extremely sensitive instrument that can withstand the daily rigors of surgery.

Sklarlite XD™

Extra Delicate Forceps mill scant microns off the delicate pattern to produce one of the lightest general surgery forceps on the market today, without compromising instrument integrity and reliability. Sklarlite and Sklarlite XD are covered under the same warranty that guarantees all Sklar instruments for a lifetime of dependable use.

Sklar LiteGrip™

Forceps offer fenestrated handles to allow for a firm secure grip in a lighter pattern.

General Surgery Instruments

Our very best operating room, high quality instruments incorporating optimum grades of German grade surgical steel, finely detailed craftsmanship and exacting standards of manufacturing. Choose from a full line of the most popular patterns.

SKLARLITE™ AND SKLARLITE XD™ PROVIDES LIGHTNESS AND DURABILITY

Sklar has developed a new line of premium operating room instruments that offers the surgeon maximum control and precision. Our research determined a need for instruments that were lighter patterns while maintaining the strength and durability of a standard pattern.

Sklar has recognized the need for a manufacturing technique that mills scant microns off our standard pattern while maintaining the structural integrity of the original instrument. The result is a noticeably lighter, extremely sensitive instrument that can withstand the daily rigors of surgery.

SKLARLITE™ and SKLARLITE XD™ instruments carry the same day-in and day-out reliability that you have come to expect from all Sklar instruments. Sklar has applied its more than 100 years of experience in developing this superior instrument.

Needle Holders

Tungsten Carbide

TC Needle Holders utilize solid tungsten carbide insert jaws with a Sklar pyramid profile to hold suture needles far more securely than any standard instrument. All TC inserts are virtually indestructible with an extremely hard alloy that provides exceptional control, eliminating needle rotation and slippage. These precisely ground needle holders are readily identified by the dual gold finger rings.

Premium

SklarLite™ / SklarLite XD™

Sklarlite Premium needle holders have been reduced in their overall pattern weight to produce a lighter instrument for improved comfort that minimizes fatigue to clinicians during prolonged procedures. Sklarlite XD Extra Delicate needle holders provide the most sensitive surgical tool as well as our lightest possible pattern while retaining its needle grasping capability and strength. Sklarlite and Sklarlite XD are fully guaranteed for a lifetime of dependable use.

General Surgery Instruments

Our very best operating room, high quality needle holders are forged and finished from optimum grades of German surgical steel with finely detailed craftsmanship and exacting standards of manufacturing, including our exceptional line of Microsurgery instruments.

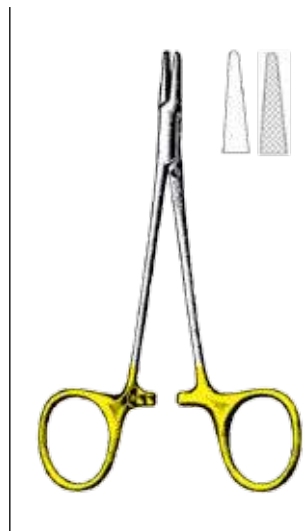

Microsurgery

Sklar offers a highly functional range of Micro Needle Holders designed to carry out the needs of the surgeon at the micro level. Perfectly designed pointed jaws provide a better grip on needles and are widely appreciated for minimizing hand fatigue.

Sklar's Left-Handed Needle Holders

Now there's a ring-handled needle holder created for the needs of left-handed surgeons.

Sklar's left-handed needle holder features a unique ratchet design that makes it possible for surgeons to easily control the needle holder with their left hand. As a result surgeons experience less fatigue and hand strain than ever before.

Suitable for left hand use.

SKLARLITE THE LIGHT TOUCH

SKLARLITE XD™ EXTRA • DELICATE

SKLARLITE™ AND SKLARLITE XD™ PROVIDES LIGHTNESS AND DURABILITY

Sklar has developed a new line of premium operating room instruments that offers the surgeon maximum control and precision. Our research determined a need for instruments that were lighter patterns while maintaining the strength and durability of a standard pattern.

Sklar has recognized the need for a manufacturing technique that mills scant microns off our standard pattern while maintaining the structural integrity of the original instrument. The result is a noticeably lighter, extremely sensitive instrument that can withstand the daily rigors of surgery.

SKLARLITE™ and SKLARLITE XD™ instruments carry the same day-in and day-out reliability that you have come to expect from all Sklar instruments. Sklar has applied its more than 100 years of experience in developing this superior instrument.

PROVIDES LIGHTNESS AND DURABILITY

Sklar premium operating room instruments offers the surgeon maximum control and precision. Our researchers recognized a need for instruments that were lighter patterns but maintained the strength and durability of a standard pattern.

Sklar developed a manufacturing technique that mills scant microns off our standard pattern while maintaining the structural integrity of the original instrument. The result is a noticeably lighter, extremely sensitive instrument that can withstand the daily rigors of surgery.

SKLARLITE™ and SKLARLITE XD™ instruments carry the same day-in and day-out reliability that you have come to expect from all Sklar instruments. Sklar has applied its more than 100 years of experience in developing this superior instrument.

SKLAR DISINFECTANT

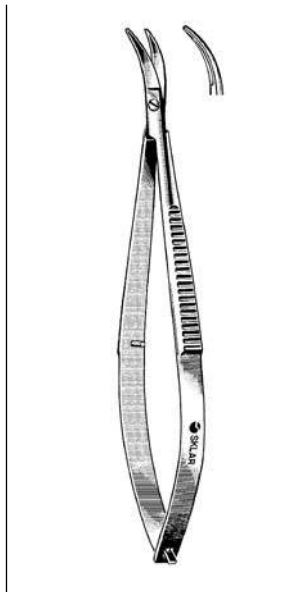

READY-TO-USE SPRAY SURFACE DISINFECTANT

2 MINUTE KILL TIME!

- Ready to use, non-toxic formula.
- Specially formulated for the control of cross contamination.
- Effective against H1N1, MRSA, Salmonella, Parvo, Feline Leukemia, Herpes Simplex, Distemper, Ringworm, Strangles.
- Safe for all areas of the facility.
- Satisfies OSHA's Bloodborne Pathogen Standards.
- Non-irritating formula.
- EPA registered.

SKLAR SOAK™

THE FIRST LINE OF DEFENSE

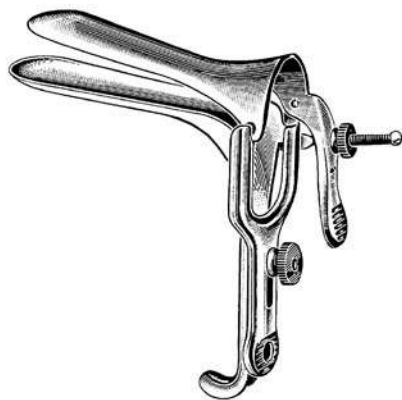

Immersing soiled instruments in SKLAR SOAK effectively pre-cleans and decontaminates, without fear of rusting!

SKLAR SOAK is an effective pre-cleaner that breaks down bio-burden, lifting blood and other organic debris from the surface, while penetrating box locks and crevices. The rust inhibitor protects the delicate chromium oxide layer of the instrument, thus defending against rust and corrosion. Using SKLAR SOAK as a pre-cleaner is the first line of defense against rust, prolonging the life of the instrument and therefore protecting your investment!

Soaking for only two minutes thoroughly decontaminates instruments, reducing the risk of exposure to pathogens such as H1N1, MRSA, Salmonella, Parvo, Feline Leukemia, Herpes Simplex, Distemper, Ringworm, Strangles. However, because SKLAR SOAK contains a rust inhibitor, instruments may soak for several hours without fear of rusting! Employees are protected from cross contamination, and at the same time can enjoy the freedom to reprocess instruments when it's convenient!

Electrosurgery

Sklar Blue™ Instruments

Sklar Blue Electrosurgery Instruments are designed to provide an effective, non-conductive, patient-safe surface. Sklar's line of electrosurgical instruments features our exclusive Sklar Blue insulated coating that prevents transmission of RF current through the instrument. Manufactured of the highest quality stainless steel, these instruments are fully autoclavable. All Sklar Blue electrosurgical coatings are guaranteed for one year against manufacturing defects.

Electrosurgical Disposables

Sklar's long held tradition of providing quality surgical instruments continues with the establishment of disposable electrosurgical pencils, grounding pads, active electrodes and accessories. Offering unsurpassed performance and design features. Sklar Electrosurgical products deliver quality you can feel, see and trust for even the most challenging surgical procedure.

Electrosurgical Bipolar Forceps

Sklar Bipolar Forceps are made of high quality materials and insulation to ensure reliability, safety and performance. Properly applied, bipolar desiccation and coagulation minimizes collateral damage to surrounding tissue. Offering a wide range of patterns, Sklar has the exact instrument for your surgery or laparoscopic procedure.

Sklar Blue™ Electrosurgery Instruments are designed to provide an effective, non-conductive, patient-safe surface. Sklar's line of electrosurgical instruments features our exclusive Sklar Blue™ insulated coating that prevents transmission of RF current through the instrument. Manufactured of the highest quality stainless steel, these instruments are fully autoclavable. All Sklar Blue™ electrosurgical coatings are guaranteed for one year against manufacturing defects.

Single Use / Sterile

Sklar Premium Electrosurgical Pencils are available in a push button, foot switch or rocker switch configuration. Sklar pencils are ergonomically designed to provide maximum balance and comfort for the surgeon. Each pencil features a removable 2.75" stainless steel blade electrode, with hex locking feature to provide stability during difficult surgical procedures.

Unsurpassed performance and design features, like sealed switching components, make the Sklar Premium Electrosurgical Pencil the right choice. Pencil tips are interchangeable with any of Sklar's electrodes and most other manufacturer's electrodes. Sklar Pencils come standard with a pre-attached 3 meter cord with a standard three prong plug. All Electrosurgical Pencils are provided in a single use, sterile pouch.

Sklar Premium Blade Electrodes feature a ribbed molded insulator, which allows the surgeon or technician easy removal of the electrode during procedures. They are available with a hex lock feature that assures stability and prohibits rotation of the blade during difficult procedures. They are also available coated with an anti-stick material that allows easy clean up of accumulated debris.

Single Use / Non-Sterile

Sklar Premium Patient Return Pads are manufactured using an advanced design hydro-gel adhesive that, incorporated with a gel overlay system, provide a much safer return pad for both the patient and surgeon. Sklar offers Patient Return Pads in five different configurations.

RETURN ELECTRODES / GROUNDING PADS

PRODUCT NUMBER	FEATURES	QUANTITIES
96-9688	Dual Element, 9' Cord Attached, Standard	50/cs
96-9690	Dual Element, Non-Corded, Standard	5/pk, 40pk/cs, 200/cs

96-9688 and 96-9690 are dual element return pads designed to be used with electrosurgical units that are equipped with REM or Neutral Electrode safety systems that continually monitor impedance levels. The 96-9688 comes with a pre-attached 9 foot cord with standard plug. The 96-9690 requires the use of a reusable cable, 96-9698, and come in a resealable foil pouch.

PRODUCT NUMBER	FEATURES	QUANTITIES
96-9692	Single Element, 9' Cord Attached, Standard	50/cs
96-9694	Single Element, Non-Corded, Standard	5/pk, 40pk/cs, 200/cs

96-9692 and 96-9694 are traditional single element return pads manufactured using the same hydro-gel technology. Both are designed for use with all electrosurgical generators. The 96-9692 comes with a pre-attached 9 foot cord, with standard connector. The 96-9694 requires the use of a reusable cable, 96-9698, and come in a resealable foil pouch.

READY-TO-USE, PRE-MOISTENED TOWELETTES

DISINFECTANT™ SURFACE WIPES

2 MINUTE KILL TIME! SAME EFFECTIVE FORMULA AS SKLAR DISINFECTANT!

- Ready to use, non-toxic formula.
- Specially formulated for the control of cross contamination.
- Effective against H1N1, MRSA, Salmonella, Parvo, Feline Leukemia, Herpes Simplex, Distemper, Ringworm, Strangles.
- Safe for all areas of the facility.
- Satisfies OSHA's Bloodborne Pathogen Standards.
- Destroys odor-causing bacteria.
- 7" x 10" non-woven, tear resistant towelette.
- Clean scent.
- EPA registered.

Sklartech 5000

Sklartech 5000

The Sklartech 5000 Laparoscopic Instrument line provides a full range of the most popular patterns. Instruments can be purchased as a complete set or individually. When purchased as a complete instrument, Sklartech Laparoscopic Scissors, Dissectors and Forceps include the insert with tip, insulated cannula and handle with locking collar.

As with all Sklar complete Laparoscopic instruments, the handles and replacement inserts are easily interchangeable to perform intended and required by the surgeon. Each Sklartech 5000 scope is constructed of the highest quality German grade stainless steel to provide reliable durability and ease of use.

FEATURES:

INSULATED SHAFT provides vital protection against electrosurgical transfer.

INSERT WITH TIP is easily separated from cannula for cleaning and reprocessing with a convenient screw design.

LOCKING COLLAR features 360° rotation for ideal jaw position. Activate lock to provide tension and prevent accidental movement.

CARBON FIBER HANDLES are a comfortable ring construction that allows for precise hold of tissue. choose from ratchet (YC) or non-ratchet (XC) designs.

SINGLE PORT LAPAROSCOPY

Discover the **New Evolution** in minimally invasive Laparoscopic Surgery

Single Port Laparoscopic surgery is an innovative procedure in which the skilled surgeon operates almost exclusively through a single entry point, typically the patients navel. Unlike the traditional multi-port laparoscopic approach, SPL leaves only a single small scar and most patients report less discomfort and faster recovery.

- Decreased trauma and risk for herniation
- Enhanced cosmetic benefits with minimal visible scarring
- Reduced post-operative pain
- Accelerated recovery time

Item Number 31-9415
20mm Diameter

Trocar that supports (2) 5mm and (1) 10mm Trocar/Obturator

LIGATION CLIPS

Sklar is pleased to offer the most atraumatic shaped clip on the market. Sklar Ligation Clips' unique "U-Shape" design provides a stronger, more permanent hold. The unique and highly-advanced cross-serrations on each clip make it extremely secure, eliminating slippage from the vessel after closure. And the solid titanium gives a scatter-free CT image and is MRI compatible.

Sklar Ligation Clips are conveniently packaged in sterile cartridges holding six single clips, eliminating waste. Cartridges feature an adhesive backing to easily affix to any surface.

Perfect compatability between special appliers and clips allow for an effortless loading system while the chevron shape facilitates a surgeon's choice "tip-first" closing action. Vessels are contained within the clip so full control is available before ligation.

STERILE

INSTRUMENT	SIZE	FEATURES	QUANTITIES

HX-LINE Disposable Sheath/Insert with Reusable Handles

Sklar is proud to introduce the SKLARTECH 5000HX-Line of Disposable Laparoscopic Instruments featuring a disposable sheath/insert combination and reusable carbon fiber handle. With a disposable sheath/insert combination, all parts of the instrument that had direct contact during surgery can be disposed of immediately after procedures. The carbon fiber handles, available with or without ratchet, can quickly and easily be cleaned and sterilized for continued use.

- Choose from a full line of the most popular patterns.
- Benefit from factory-honed instrument edge with every use.
- Improved operating room efficiency.
- Eliminate difficult reprocessing procedures.
- Enhanced efficiency and cost savings.

Sklar is pleased to offer a full line of Care & Cleaning agents to disinfect, decontaminate, sterilize, lubricate and protect your stainless steel surgical instruments and equipment. For expert care of your surgical instruments at every stage of the cleaning process, trust Sklar to deliver the right cleaning agent for you.

3 EASY STEPS FOR THE CARE AND CLEANING OF YOUR INSTRUMENTS

1 DECONTAMINATION

Sklar Disinfectants are a pre-cleaner and disinfectant for the safe decontamination of soiled surgical instruments, medical and surgical equipment and inanimate surfaces including plastics, stainless steel, chrome, glass, Plexiglas and baked on painted surfaces.

Disinfectants are effective against a broad range of pathogens in as little as 2 minutes.

2 CLEANING

Sklar carries a complete line of effective detergents and enzymatics for cleaning, not only for your surgical instruments, but also metals, glassware, plastic and rubber. Available in your choice of powder, liquid concentrate or spray foams.

3 LUBRICATION

To guarantee extended life and performance of your surgical instruments, choose one of Sklar's lubricants or sprays as the final step in your instrument processing regimen. Specifically designed to protect against corrosion, rust and staining, Sklar offers several different types of lubricants to protect your investments.

SKLAR-CIDE™

HIGH LEVEL DISINFECTING/STERILIZING SOLUTION

Sporicidal • Bactericidal • Virucidal • Fungicidal

SKLAR-CIDE provides a safe and efficient means for the high-level disinfection or sterilization of medical, ophthalmic, dental and surgical devices including endoscopes and lensed instruments. It may be used as a standard soak solution or in automatic reprocessing units set at room temperature. Unlike other solutions, there is no need to increase the solution temperature to provide high-level disinfection in 25 minutes.

SKLAR-CIDE is a surfactant-free, activated glutaraldehyde liquid chemical sterilant and high-level disinfectant. Its active ingredient is glutaraldehyde in a nominal concentration of 3%. When the powdered activator is added, the solution turns green in color to indicate its readiness for use. In addition to the active ingredient, this ready-to-use solution contains buffers, wetting agents, and a rust and corrosion inhibitor and it has a pleasant fragrance.

SKLAR-CIDE produces high-level disinfection at room temperature in as little time as 25 minutes, and complete sterilization in 10 hours at room temperature.

- Reusable for 28 days instead of 14, safer and saves time and money.
- Surfactant free - Will not damage scope surfaces or cloud lenses.
- Can be used safely on all devices, including instruments and endoscopes. No need to stock several products.

- Effective against H1N1, MRSA, Salmonella, Parvo, Feline Leukemia, Herpes Simplex, Distemper, Ringworm, Strangles.
- Safe for all areas of the facility.
- Satisfies OSHA's Bloodborne Pathogen Standards.
- Destroys odor-causing bacteria.
- 7" x 10" non-woven, tear resistant towelette.
- Clean scent.
- EPA registered.

KILLS MRSA AND H1N1 VIRUS

SKLAR SPRAY-ZYME™

SURGICAL INSTRUMENT PRE-CLEANER

Multi-Enzyme Based Instrument Presoak & Cleaner Foam Spray Cleaner

The newest product from Sklar for expert care of your surgical instruments. This multi-enzymatic spray creates a heavy foam which lasts for hours, keeping soiled instruments moist to avoid encrustation while also pre-cleaning prior to processing.

- Prevents Organic Encrustation - enzyme foam stops blood and bodily fluids from drying onto surgical instruments.
- No More Spills - messy spills between the operating room and central cleaning /processing department are eliminated.
- Neutral pH - safe and effective for stainless steel, tungsten carbide, aluminum and brass instruments.
- Bacteriostatic - microbiological control agents inhibit bacterial growth in the ready-to-use foam solution.
- Long Lasting Foam - saves time, foam lasts many hours after application.
- Multi-Enzymatic - contains a synergistic blend of lipase and protease enzymes.

SKLAR-ZYME™ POUCHES

CONVENIENT VALUE

Each pouch of SKLAR-ZYME produces one gallon of enzymatic detergent. This convenient, easy to use product guarantees very little waste and is ideal for the office or smaller surgical setting.

PRODUCT NUMBER	FEATURES	QUANTITIES
10-2774	½ oz. Pouches	32/box

SKLAR SOAK™

INSTRUMENT PRE-SOAK & DECONTAMINANT RUST RESISTANT!

Immersing soiled instruments in SKLAR SOAK effectively pre-cleans and decontaminates, without fear of rusting!

SKLAR SOAK is an effective pre-cleaner that breaks down bio-burden, lifting blood and other organic debris from the surface, while penetrating box locks and crevices. The rust inhibitor protects the delicate chromium oxide layer of the instrument, thus defending against rust and corrosion. Using SKLAR SOAK™ as a pre-cleaner is the first line of defense against rust, prolonging the life of the instrument and therefore protecting your investment!

Soaking for only two minutes thoroughly decontaminates instruments, reducing the risk of exposure to pathogens such as N1H1, MRSA, Salmonella, Parvo, Feline Leukemia, Herpes Simplex, Distemper, Ringworm, Strangles. However, because SKLAR SOAK™ contains a rust inhibitor, instruments may soak for several hours without fear of rusting! Employees are protected from cross contamination, and at the same time can enjoy the freedom to reprocess instruments when it's convenient!

SKLAR SOAK is ideal for use on all stainless steel instruments:

- PH balanced, designed specifically for stainless steel instruments.
- Intermediate level disinfectant with broad spectrum of efficacy.
- Rust resistant.
- Non-caustic.
- Ready to use.
- No special handling or disposal.
- Fragrant, no offensive odors.
- Non-glutaraldehyde.

SKLAR INSTRU-GUARD™ ONE STEP

A “ONE STEP” INSTRUMENT CLEANER AND LUBRICANT

EXTENDS INSTRUMENT LIFE!

SKLAR INSTRU-GUARD ONE STEP contains a penetrating lubricant that protects and helps extend the life of surgical instruments. The detergents and emulsifiers quickly break up and remove organic soils from box locks and other hard to reach places.

SKLAR INSTRU-GUARD ONE STEP contains four rust inhibitors to control corrosion and eliminate scaling and spotting. It does not contain phosphates and can reduce the time and cost involved in processing your instruments by cleaning and lubricating in one easy step.

PRODUCT NUMBER	FEATURES	QUANTITIES
10-2800	1 Gallon Bottles	4/case
10-2801	1 Gallon Bottle	1 bottle

SKLAR INSTRU-GUARD™ LUBE

SURGICAL INSTRUMENT LUBRICANT / RUST INHIBITOR

- Extends the Life of Instruments.
- Protects all Surgical Instruments.

SKLAR INSTRU-GUARD LUBE is an easy-to-use, water soluble, lubricant and rust inhibitor. When used daily as a rinse after every cleaning it keeps moving parts operating smoothly and remains effective after autoclaving, but without leaving an oily residue.

Regular lubrication is essential no matter which cleaning method is employed (including ultrasonic). SKLAR INSTRU-GUARD LUBE is ideal for maintaining instrument quality and performance.

SKLAR KLEEN™

LOW FOAM, LIQUID DETERGENT AND POWDERED FORMULA

Regular Formula for Manual and Ultrasonic Cleaning

SKLAR KLEEN is non-corrosive, non aggressive, phosphate free and biodegradable. We have specifically developed SKLAR KLEEN for manual and ultrasonic cleaning. It is moderately alkaline, affording optimum cleaning without etching glassware or attacking instrument metal.

Low Foam Formula for Automatic Cleaning

The SKLAR KLEEN Low Foam Liquid is concentrated in order to provide a very cost-effective solution. It is especially formulated to maintain low foam, ensuring effective and trouble-free action in washer/sterilizers and tunnel washers. Dispersing quickly, the SKLAR KLEEN Low Foam formula is also well suited for automatic injection systems.

PRODUCT NUMBER	FEATURES	QUANTITIES

10-1627	Liquid 1 Gallon Bottle	1 bottle

SKLAR-SHEEN™

AUTOCLAVE AND INSTRUMENT CLEANER AND CONDITIONER

With an efficacious phosphoric acid cleaning agent, Sklar Sheen is a robust spot, stain and rust remover. Ideal for dissolving hard water deposits, use in autoclaves to quickly cut through steam sterilizer scale and deposits.

Verstile and effective, SKLAR SHEEN couples powerful stain and rust removers with corrosion inhibitors, making it tough on stains but gentle on instruments. Recondition instruments to restore them to nearly brand new working condition.

Use to clean and recondition any stainless steel surface to its original luster, including carts, trays and basins.

- Conditions for lasting protection.
- Dissolves hard water deposits.
- Frees up frozen box locks.
- Restores and extends surgical instrument life.

PRODUCT NUMBER	FEATURES	QUANTITIES
10-2730	Stain & Rust Remover	1 gallon bottle
10-2732	Stain & Rust Remover	4/case

SKLAR ENZYMATIC™ DETERGENT

MULTI-ENZYME DETERGENT CONCENTRATE

100% Biodegradable

SKLAR ENZYMATIC Detergent is a low-foaming, fast acting detergent specifically designed for use when instruments and/or cloth materials become soiled with organic debris.

SKLAR ENZYMATIC Detergent may be used as a manual instrument cleaner as well as a pre-soak for blood-contaminated linens, clothing and instruments. It is also used in ultrasonic units and in washer/sterilizer/decontaminators. When used as directed, the enzymatic pH neutral formula is safe for use on rubber, plastic, stainless steel instruments, and surgical equipment as well as cloth.

10-2777	1 Gallon Bottles	4/case
10-2775	1 Gallon Bottles	2/case
10-2776	1 Gallon Bottle	1 bottle

SKLAR STAT™

INSTANT FOAM HAND SANITIZER

KILLS 99% OF GERMS IN LESS THAN 15 SECONDS!

SKLAR-STAT Instant Foam Hand Sanitizer, based on the active ingredient Benzalkonium Chloride, is a unique formulation featuring exceptional skin feel, conditioning and moisturizing properties. The efficacy of this product has been confirmed to reduce *S. Aureus* 99.999% and *S. Aureus* MRSA 99.9% in as little as 15 seconds. SKLAR-STAT Instant Foaming Hand Sanitizer produces a fast drying, non-sticky foam that contains unique conditioning and moisturizing ingredients, leaving the skin with a soft, silky after-feel.

10-2852	550 ml Pump Dispensers	12/case

SKLAR STAT™

AUTOMATIC FOAM DISPENSER

Motion activated, battery powered and wall-mounted, Sklar's AUTOMATIC FOAM DISPENSER allows for easy access and reduced risk of cross contamination. Ideal for use in hospitals, medical centers, offices, schools and any high-traffic public area with multiple users.

PRODUCT NUMBER	FEATURES	QUANTITIES
10-2856	Wall Mount Dispenser	1 Each
10-2854	1000ml Refill Bottles	6/case
10-2858	(2) Cases 1000ml Refill Bottles plus Free Wall Mount Dispenser	1 Set

- Alcohol-Free
- Non-Sticky
- Moisturizes and Conditions Hands

1. Pump a small amount into palm of hand.
2. Rub thoroughly over both surfaces of both hands.
3. Rub hands together briskly until dry.

SKLAR FRESH™

LIQUID SPRAY ODOR ABSORBER

SKLAR FRESH is an environmentally friendly blend of pure biodegradable organic essential oils and trace elements. It is a non-allergenic liquid spray that neutralizes odors at their source. Simply spray SKLAR FRESH directly in the air or on the source (i.e. bathrooms, refuse, soiled items from vomitus, incontinence odors, etc.)

PRODUCT NUMBER	FEATURES	QUANTITIES
10-2842	22 oz. Spray Bottles	12/case

SKLAR POLISH™

INSTRUMENT STAIN REMOVER

Non-Abrasive

SKLAR POLISH is an effective stain remover for use on all your metal surgical instruments, including stainless steel, chrome and brass. It will brighten instrument trays, basins and racks and may also be used on porcelain and tile surfaces.

TROUBLE SHOOTING

NO STEEL IS TRULY "STAINLESS"

It's a fact that so-called stainless steel is subject to both water-spotting and staining. However what many people identify as a "rust" problem usually turns out to be something else.

Most often the problem is actually a stain caused by a surface deposit. These deposits appear in a variety of colors depending upon the type of deposit involved. Once the cause is found and eliminated, most of the time the problem quickly diminishes or disappears completely.

As you probably know, stainless steel is ideally suited for the surgical suite because it is rust resistant, it can be honed to an extremely sharp edge or fine point,

and it can be hardened to maintain the delicate, yet precise, requirements of the surgeon. But it is this hardenable quality – the amount of carbon used during the manufacturing process – coupled with harsh chemicals and improper care that renders stainless steel susceptible to corrosion.

To protect your instrument investment, Sklar cleaning agents have been specifically formulated to provide cost effective instrument care solutions that help maintain the life and performance of your valuable stainless steel instruments.

TROUBLE SHOOTING

CORROSION

- Problem:** Debris and residue in box locks, serrations and ratchets.
- Solution:** Serrations, box locks and ratchets should be carefully cleaned and rinsed. A soft bristle brush is effective in these difficult areas.
- Problem:** Moisture remaining on the instruments within the sterile wrapped packs; excessive moisture in autoclave during sterilization and termination of cycle.
- Solution:** Preheat autoclave, drying time cannot be accelerated, open autoclave door slightly. Routinely inspect valves. Malfunctioning valves can precipitate corrosion.
- Problem:** Some local water supplies contain excessive quantities of alkali. This can manifest itself by depositing corrosive matter on the instruments.
- Solution:** It is generally accepted that cold distilled or demineralized water be used during sterilization. An alternative is to use the local water supply, while instituting a program of preventive maintenance. Carefully clean surfaces with SKLAR KLEEN™, using SKLAR POLISH™ to remove difficult stains and SKLAR LUBE™ for proper lubrication.

PITTING

- Problem:** Instruments are inevitably exposed to chemical compounds that initiate pitting. The most common are saline solutions and blood.
- Solution:** It is essential that instruments be rinsed with distilled or demineralized water and then cleaned routinely.
- Problem:** Some Non-Sklar detergents contain a chloride or have an acid base. If rinsing is not thorough, the residual detergent can precipitate pitting. Hydrochloric acid can be formed by the combination of chloride in the cleaner and steam, causing the instrument to pit.
- Solution:** Evaluate detergents without a chloride base. SKLAR KLEEN™ is recommended.
- Problem:** Instruments may be pitted when the detergent used has an excessively high pH. If instruments are not rinsed thoroughly and then autoclaved, the heat increases the effect of the solution on the instruments.
- Solution:** Use only detergents specifically developed for instrument cleaning. SKLAR KLEEN™ products are pH balanced.

BROWNISH STAIN

- Problem:** This stain is more obvious on dull finish instruments. Most likely, it is a deposit of chromium oxide. The thin hard layer protects stainless steel from corrosion precipitated by the atmosphere. The brownish film (sometimes dull blue) occurs naturally when stainless is heated. Occasionally this stain can be traced to the sterilizer. Improper cleaning compounds could contain poly phosphates that cause the copper components in the sterilizer to be deposited by electrolytic action on the stainless steel instruments.
- Solution:** Water supply to autoclave should be cold and demineralized. Use the correct amount of SKLAR KLEEN™ as recommended for best results.

BLUISH GRAY STAINS

- Problem:** Cold sterilizing solutions.
- Solution:** In the preparation of the solution make certain the manufacturer's directions are followed accurately. To minimize discoloration use distilled water and add a rust inhibitor. Using the solution beyond recommended time limitations will cause the solution to become corrosive.

RUST DEPOSIT

- Problem:** Sterilizing instruments of different metals in the same cycle will cause rusting. An electrolytic action carries the carbon particles from the exposed metal and deposits them on the stainless steel instruments. The rapid oxidation of molecules results in a surface film of rust.
- Solution:** The ideal technique would be to sterilize the two types of instruments separately. It is recommended that chrome plated instruments that indicate signs of peeling or flaking be replaced with stainless steel instruments.
- Problem:** The rust film on the surface of stainless steel instruments can be caused by chemicals in the detergent. Excess amounts of iron or other minerals from the local water supply may cause the rust deposits.
- Solution:** It is recommended that instruments be rinsed with distilled or demineralized water. Surface rust can be removed by light buffing or an application of SKLAR POLISH™.

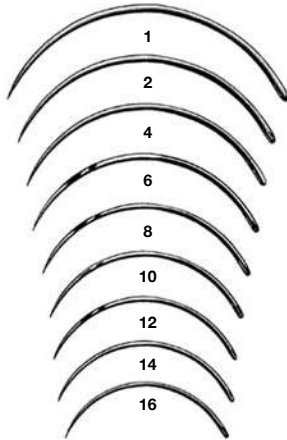

LIGHT AND DARK COLORED SPOTS

- Problem:** Spotting caused by slow evaporation of water drops identified with the mineral content of the water.
- Solution:** Eliminate water droplets by adhering to autoclave manufacturer's operating instructions. Autoclave door should not be opened until steam has been completely vented.

Sklar Surgical Needles are offered in multiple configurations. For wound and laceration care, the Reverse Cutting Needles are made with a sharp outer edge to allow for smooth and atraumatic penetration of tough skin and fascia. Tapered needles are used almost exclusively on soft, less dense tissue and when the smallest diameter hole is desired. All needles have Regular Surgeon Eyes unless otherwise specified.

All needles are sold Non-Sterile in packages of 12. When ordering simply add the corresponding needle size number to the end of the needle family product number, ie. needle size #4 would be 93-1760-4 or size #16 would be 93-1760-16. Needles are not shown to actual size.

Sutures

Material

Suture material is permanently attached to all needles, eliminating the need for threading and providing a crisp new needle for each procedure. Suture characteristics (ie. color, length, material) are denoted in sub-headings. Suture length is shown in both metric and inches. Suture size, that is the diameter of the material, is in accordance with the United States Pharmacopeia (USP).

Needle

All needles are made from high quality stainless steel and finished to allow for easy passage through tissue with minimal resistance. Needle sharpness is classified as Standard or Supra-Sharp. Surgical needle tips are offered as taper point or reverse cutting. Needle curvature is available as $\frac{3}{8}$ or $\frac{1}{2}$. Needle silhouettes are not shown to actual size.

Size

Some needle sizes are offered with various gauge suture to meet the surgeon's needs by procedure (ie. finer gauges for use in soft or delicate tissues or heavier gauges for use in tough or fibrosed tissues).

Packaging

All Sutures come in packages of 3 dozen per box unless otherwise noted. Product codes ending in "D" are packaged 1 dozen per box. Product codes ending in "T" are packaged 2 dozen per box. All sutures are sold in sterile packaging.

ABSORBABLE SUTURES

Absorbable Sutures are designed to minimize tissue drag, allow for smooth passage through tissue and provide excellent tissue support and reliable absorption rates.

CHROMIC GUT

Complete Absorption between 60-90 DAYS

Frequently used in easy healing tissues and recommended for General, Gynecology, Obstetrics, Ophthalmic, Urology and other procedures that do not require permanent artificial support.

TAPER POINT			SIZE
½ CIRCLE			
NEEDLE	CHROMIC MONOFILAMENT	LENGTH	3-0
26 mm		75cm - 30"	93-C50130

EPISYN

Complete Absorption between 90-120 DAYS

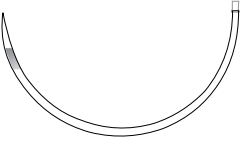

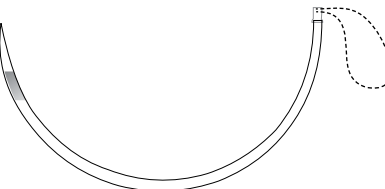

Recommended for General, Urology, Plastic and Gynecological surgery.

PRECISION REVERSE CUTTING			SIZE	
SUPRA-SHARP ¾ CIRCLE

SURGI-OR™

Surgi-OR™ is a full line of high-quality, Mid-Grade OR instruments, hand-crafted and forged from Japanese surgical grade stainless steel. This cost-effective line of instruments are designed to give you maximum performance at affordable cost and offers significant value to the Operating Room as well as other important surgical settings.

Sklar is pleased to offer Surgi-OR Tungsten Carbide Instruments that feature this extremely hard alloy resulting in a superior instrument.

Surgi-OR Needle Holders feature solid Tungsten Carbide insert jaws for exceptional control and unbeatable strength. These perfectly balanced instruments are readily identified by the dual gold finger rings and afford quality and performance you can trust in a variety of surgical settings.

MADE IN PAKISTAN.

Designed to meet the exacting standards of health care professionals who demand precise acoustic response in various settings, Sklar offers a full range of Stethoscopes that feature superb craftsmanship and performance.

SPRAGUE RAPPAPORT STETHOSCOPES

- The most popular stethoscope style on the market, worldwide.
- Includes five easily interchangeable chest pieces: 3 Bells (Large, Medium and Small) and 2 Diaphragms (Small and Large) allowing for a full range of diagnostic capabilities. Also includes 3 different size ear tips.
- Superior high and low frequency sensitivity; designed to detect the entire range of heart and chest sounds. Clinically proven to deliver more faint heart sounds and murmurs than other stethoscopes.
- Chest piece is equipped with a full rotational dual-output acoustic valve mechanism that ensures smooth rotation and accurate acoustic transmission.
- All components are individually machined and precisely assembled to deliver the choice stethoscope of medical professionals.
- Comfortably angled, anatomically correct headset with patented soft ear tips and excellent acoustic seal.
- Latex Free.

SPRAGUE RAPPAPORT STETHOSCOPES

DUAL HEAD

PRODUCT NUMBER	FEATURES	
06-1625	28"	Gray
06-1627	28"	Black
06-2304	28"	Blue

CARDIOLOGY STETHOSCOPES

- Superb craftsmanship, construction and materials to offer the ultimate performance and sound transmission.
- Available in single-sided or dual-sided design with very high acoustic response.
- Offered as a double-lumen tube design in a variety of color choices to meet individual preferences.
- Comfortably angled, anatomically correct headset with patented soft ear tips and excellent acoustic seal.
- Latex Free.

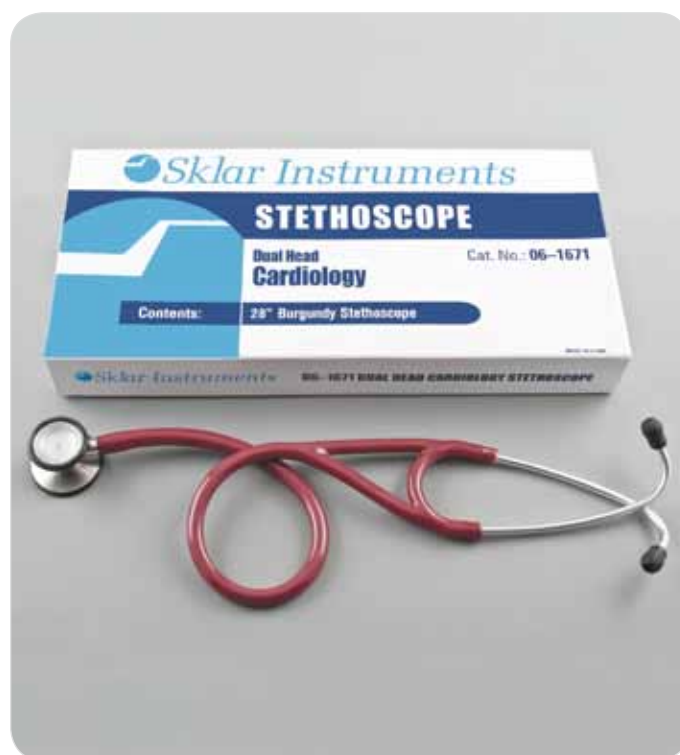

SINGLE SIDED

PRODUCT NUMBER	FEATURES	
06-2750	27"	Black
06-2800	28"	Black
06-2802	28"	Blue
06-2803	28"	Green

DUAL HEAD

Deluxe, two-sided traditional combination chest piece with patented turnable diaphragm to allow for high, medium and low frequency sounds to be heard.

PRODUCT NUMBER	FEATURES	
06-1670	28"	Black
06-1671	28"	Burgundy
06-1672	28"	Navy Blue
06-1673	28"	Green

ADULT STETHOSCOPES

- Unsurpassed quality and value.
- Available in single-sided or dual-sided design, in a variety of color choices, with very high acoustic response.
- Specifically designed, sized and acoustically precisioned for adults.
- Patient friendly non-chill rim and diaphragm, excellent acoustic seal and comfortable fit with patented soft ear tips and a comfortably angled, anatomically correct headset.
- Unlimited flexibility and portable convenience.
- Latex Free.

SINGLE SIDED

PRODUCT NUMBER	FEATURES
06-2760	30" Black

DUAL HEAD

Deluxe, stainless steel, two-sided traditional combination chest piece with high and low frequency capabilities.

PRODUCT NUMBER	FEATURES
06-1601	30" Gray
06-2298	30" Purple
06-2299	30" Hunter Green
06-2300	30" Black
06-2302	30" Blue

LIGHT ADULT STETHOSCOPES

DUAL HEAD

Lighter construction reduces fatigue while maintaining performance.

PRODUCT NUMBER	FEATURES
06-1630	30" Black
06-1632	30" Gray

PEDIATRIC AND INFANT STETHOSCOPES

- Traditional bell/diaphragm chest pieces are specifically designed, sized and acoustically precise for small animal applications.
- Features Solid Stainless Steel chest piece with a Traditional 1" Bell or smaller ¾" Bell.
- Easy rotation between diaphragm or open bell side of stethoscope and sensitive to both high and low frequencies.
- Available as a dual-sided design, in a variety of attractive colors.
- Excellent acoustic seal and comfortable fit with patented soft ear tips and a comfortably angled, anatomically correct headset.
- Latex Free.

YANKAUER SUCTION TUBE

The Sklar Yankauer is a rigid, curved, one-piece design, made from a blend of clear, blue-tinted, shatterproof plastic. Edges are smooth and clean, with no flash or parting lines. Clear tips permit visual monitoring of suction fluids. A ribbed, universal connector fits securely on all types of tubing. Sklar Yankauers are available with or without a suction control vent.

SKLAR CERVIX BRUSH CERVICAL CELL SAMPLER

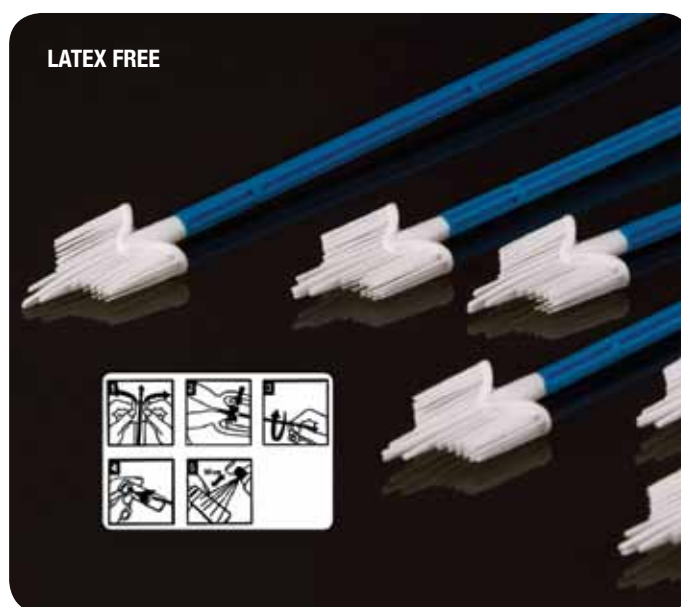

Sklar's Cervix Brush is made of polyethylene and has a total length of 20 centimeters. The top portion uses a soft flexible brush to obtain cell samples. The brush consists of 57 semi-circular plastic bristles of various lengths. The shape is such that the top edges of the brush follow the contours of the cervix. The longer middle bristles reach deep into the endocervical canal. The shorter bristles touch both the ectocervical area and transformation zone at the same time.

WASTE CAN LINERS

Designed for non-medical waste disposal, Waste Can Liners are used throughout animal health facilities to collect and contain refuse. Bags are available in a wide variety of sizes and film gauges to meet your specific application.

Choose the right plastic types:

- LLDPE (Linear Low Density Polyethylene) provides maximum puncture and tear resistance under tough transport conditions and is best suited for handling objects with sharper edges.
- HDPE (High Density Polyethylene) provides high resistance to puncturing, durability and greater load capacity for paper or non-sharp objects under moderate transport conditions.

All bags are designed with Star Seals to eliminate gaps, maximize carrying capacity and minimize leaks. Conveniently offered in flat packs or coreless rolls for easy dispensing.

All Sklar Stainless Steelware is produced according to the strictest standards to ensure superior performance and durability.

*All products are packaged individually. Select products are available in bulk. To order larger quantities, simply add the package quantity to the end of the product number when ordering, ie. 10-1670-12 for 12/cs or 10-1670-48 for 48/cs.

IODINE CUP*

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1670	6 oz., 3 ⁷ / ₁₆ " x 2"	1, 12, 24 or 48/cs
10-1671	14 oz., 4 ³ / ₈ " x 2 ⁵ / ₈ "	1, 12, 24 or 48/cs

MEDICINE CUP*

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1675	2 oz., 2 ¹ / ₈ " x 2" Graduated Measure	1, 12, 24 or 48/cs

TUMBLER*

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1536	2 ⁷ / ₈ " x 3 ¹ / ₈ "	1, 12/cs

PITCHER / BEAKER*

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1172	125ml, 2 ¹ / ₈ " x 2 ⁵ / ₈ " w/o Handle	1 Each
10-1173	250ml, 2 ⁵ / ₈ " x 3 ¹ / ₄ " w/o Handle	1 Each
10-1174	600ml, 3 ³ / ₈ " x 4 ⁵ / ₈ " w/o Handle	1 Each
10-1176	2000ml, 4 ⁷ / ₈ " x 7 ¹ / ₈ " w/o Handle	1 Each
10-1177	3000ml, 5 ¹ / ₂ " x 8 ¹ / ₄ " w/o Handle	1 Each
10-1178	4000ml, 6 ¹ / ₈ " x 8 ⁷ / ₈ " w/o Handle	1 Each
10-1175	1200ml, 4 ¹ / ₈ " x 6 ¹ / ₁₆ " with closed Handle	1 Each
10-1539	2000ml, 5 ¹ / ₁₆ " x 6 ⁵ / ₈ " with closed Handle	1, 6 or 12/cs
10-1180	3000ml, 6 ¹ / ₁₆ " x 7" with closed Handle	1 Each
10-1181	4000ml, 6 ⁷ / ₈ " x 8 ⁷ / ₈ " with closed Handle	1 Each

GRADUATED MEASURE*

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1552	16 oz., 3 $\frac{3}{4}$ " x 4 $\frac{5}{8}$ "	1, 6 or 12/cs
10-1510	32 oz., 4 $\frac{3}{4}$ " x 5 $\frac{1}{4}$ "	1, 6 or 12/cs
10-1674	64 oz., 5 $\frac{1}{2}$ " x 6 $\frac{1}{2}$ "	1, 6 or 12cs

MIXING/SOLUTION BOWLS*

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1488	$\frac{7}{8}$ qt., 6 $\frac{5}{8}$ " x 2 $\frac{1}{2}$ "	1 or 12/cs
10-1491	1 $\frac{1}{2}$ qt., 8 $\frac{1}{8}$ " x 3"	1 or 12/cs
10-1492	3 qt., 9 $\frac{3}{4}$ " x 4"	1 or 12/cs
10-1493	5 qt., 11 $\frac{7}{8}$ " x 4 $\frac{1}{2}$ "	1 or 12/cs
10-1494	6 $\frac{3}{4}$ qt., 12 $\frac{3}{4}$ " x 5 $\frac{1}{4}$ "	1, 6 or 12/cs
10-1495	8 qt., 13 $\frac{5}{16}$ " x 5 $\frac{7}{16}$ "	1, 6 or 12/cs

SPONGE BOWLS*

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1496	12 oz., 4 $\frac{1}{4}$ " x 2"	1 or 12/cs
10-1498	22 oz., 5" x 2 $\frac{3}{8}$ "	1 or 12/cs
10-1484	29 oz., 5 $\frac{5}{16}$ " x 2 $\frac{5}{16}$ "	1 or 12/cs
10-1485	36 oz., 6 $\frac{1}{4}$ " x 2 $\frac{3}{4}$ "	1 or 12/cs
10-1483	48 oz., 7 $\frac{1}{8}$ " x 2 $\frac{3}{4}$ "	1 or 12/cs
10-1486	64 oz., 7 $\frac{9}{16}$ " x 3"	1 or 12/cs

SOLUTION BASINS*

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1489	4 $\frac{1}{2}$ qt., 12" x 4 $\frac{1}{4}$ "	1 or 12/cs
10-1505	7 qt., 13 $\frac{5}{8}$ " x 4 $\frac{5}{8}$ "	1, 6 or 12/cs
10-1507	9 $\frac{1}{2}$ qt., 14 $\frac{1}{2}$ " x 5"	1, 6 or 12/cs

*All products are packaged individually. Select products are available in bulk. To order larger quantities, simply add the package quantity to the end of the product number when ordering, ie. 10-1670-12 for 12/cs or 10-1670-48 for 48/cs.

EMESIS BASINS*

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1497	10 oz., 6 $\frac{3}{8}$ " x 3 $\frac{1}{2}$ " x 1 $\frac{1}{2}$ "	1 or 12/cs
10-1698	12 oz., 8 $\frac{1}{8}$ " x 3 $\frac{3}{8}$ " x 1 $\frac{1}{8}$ "	1 or 12/cs
10-1699	26 oz., 9 $\frac{7}{8}$ " x 4 $\frac{1}{2}$ " x 2 $\frac{1}{8}$ "	1 or 12/cs
10-1487	48 oz., 12 $\frac{1}{8}$ " x 5 $\frac{3}{4}$ " x 2 $\frac{1}{4}$ "	1 Each

HOSPITAL BUCKETS

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1182	13 qt., 11 $\frac{5}{8}$ " x 9 $\frac{1}{4}$ " w/o lid	1 Each
10-1450	13 qt., 11 $\frac{5}{8}$ " x 9 $\frac{1}{4}$ " with lid	1 Each
10-1183	16 qt., 11 $\frac{3}{4}$ " x 10 $\frac{1}{8}$ " w/o lid	1 Each
10-1451	16 qt., 11 $\frac{3}{4}$ " x 10 $\frac{1}{8}$ " with lid	1 Each
10-1184	20 qt., 13 $\frac{3}{4}$ " x 11 $\frac{13}{16}$ " w/o lid	1 Each

HOSPITAL KICK BUCKET WITHOUT LID

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1551	13 qt., 11 $\frac{5}{8}$ " x 9 $\frac{1}{4}$ "	1 Each

STORAGE CONTAINERS*

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1540	$\frac{1}{2}$ gal., 5 $\frac{7}{16}$ " x 6 $\frac{5}{8}$ " no handles	1, 6 or 12/cs
10-1186	3 gal., 10 $\frac{3}{16}$ " x 9"	1 Each
10-1188	4 gal., 13" x 9"	1 Each
10-1189	5 gal., 13" x 11"	1 Each
10-1190	6 gal., 13" x 13"	1 Each

*All products are packaged individually. Select products are available in bulk. To order larger quantities, simply add the package quantity to the end of the product number when ordering, ie. 10-1670-12 for 12/cs or 10-1670-48 for 48/cs.

DRESSING JAR WITH LID*

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1523	½ qt., 4⅞" x 2¼"	1 or 12/cs
10-1533	1¼ qt., 4" x 5"	1 or 12/cs
10-1538	1⅞ qt., 4⅞" x 6¼"	1 or 12/cs
10-1527	3 qt., 5⅞" x 6¾"	1 or 12/cs
10-1543	4¾ qt., 6¾" x 7¾"	1 or 12/cs
10-1544	6 qt., 7¼" x 8⅞"	1, 6 or 12/cs
10-1547	8 qt., 8" x 9⅞"	1, 6 or 12/cs

FORCEP/THERMOMETER JAR*

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1550	1½" x 3"	1, 6 or 12/cs
10-1541	2¼" x 4½"	1, 6 or 12/cs
10-1545	2¼" x 7"	1, 6 or 12/cs

FUNNELS WITH HANGING HOOK

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1157	2¾ oz., 3" x 3¾"	1 Each
10-1158	6¾ oz., 4⅞" x 4⅞"	1 Each
10-1159	13 oz., 5⅞" x 5⅞"	1 Each
10-1160	22¼ oz., 6¼" x 6⅞"	1 Each
10-1170	32 oz., 7" x 8⅞"	1 Each
10-1171	64 oz., 8⅞" x 9½"	1 Each

LAB / UTILITY SCOOP

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1192	5 oz., 5" x 2½" (Overall length 9½")	1 Each

*All products are packaged individually. Select products are available in bulk. To order larger quantities, simply add the package quantity to the end of the product number when ordering, ie. 10-1670-12 for 12/cs or 10-1670-48 for 48/cs.

OINTMENT JAR WITH LID*

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1525	9 oz., 3⅛" x 2¾"	1 or 12/cs

MINI TRAY WITH LID

PRODUCT NUMBER	DESCRIPTION	QUANTITIES
10-1768	8½" x 3" x 1½"	1 Each

SKLAR DISINFECTANT™ SURFACE WIPES

READY-TO-USE, PRE-MOISTENED TOWELETTES

2 MINUTE KILL TIME!

**SAME EFFECTIVE FORMULA AS
SKLAR DISINFECTANT!**

- Ready to use, non-toxic formula.
- Specially formulated for the control of cross contamination.

SKLARLITE™

STERILIZATION CONTAINER SYSTEM

Pre-Vacuum Steam Sterilization

The SklarLite™ Rigid Sterilization Container System provides an organized, routine and secure approach to the sterilization of surgical instruments. Customize your SklarLite™ System by selecting colored lids and ID labels. Available in your choice of six vibrant colors for easy identification of instrument sets by procedure and/or department. Choose from various configurations to fit your surgery center needs.

- Anodized aluminum alloy is strong and durable yet lightweight and easy to handle.
- Stackable Containers maximizes space in the autoclave and storage shelf space; reduces cycle runs.
- Stackable Baskets provide ease of instrument transfer per procedure and maximizes space inside containers.
- Silicon mats secure delicate and laparoscopic instruments to minimize damage.
- Tamper evident seals prevent accidental sterile field breach.
- Long Lasting Sterilization.

STANDARD CONTAINERS

Consists of a body and perforated lid and used with Sklar's disposable filters and other compatible accessories for sterilization. Choose from either perforated or non-perforated bottoms. Lids available in six different colors for easy identification by procedure or department.

SAFE CONTAINERS

Consists of identical body and perforated lid, but features an additional solid cover that safeguards the perforation field and contents during transportation and storage. Choose from either perforated or non-perforated bottoms. Safety lids available in six different colors for easy identification by procedure or department.

INSTRUMENT CASSETTES

Organized Procedure Kits save time and improve safety! Sklar is pleased to introduce a new line of cassette trays to organize and protect instruments during handling and transportation. Removable, silicone instrument holders afford you the option of an open configuration in any cassette. Cassettes with detachable lids feature moveable instrument holders to customize instrument configuration. Choose from various cassette sizes and styles to fit your needs.

- High quality, heavy gauge stainless steel.
- Optimum slot position for effective cleaning and drainage.
- Easy open/closing latch system.
- Silicone Inserts for secure instrument placement.

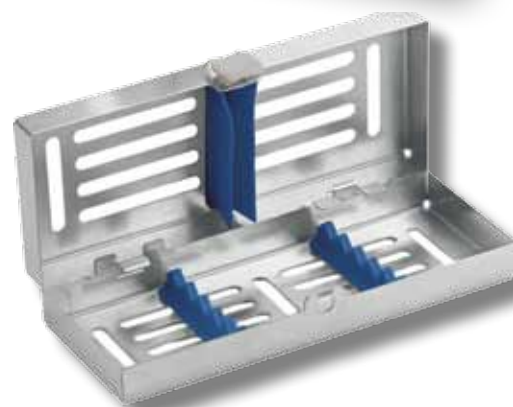

SMALL CASSETTES

Typical Applications Include:

- Diagnostic Kit
- Root Planning Kit
- New Patient Kit
- Composite Kit

PRODUCT NUMBER	SIZE	CONFIGURATION	FEATURES
10-6500	7" x 2¾" x 1⅓"	5 Instruments	Detachable Lid/Instrument Holders
10-6501	7" x 2⅓" x ⅞"	5 Instruments	Fixed Lid/Instrument Holders

MEDIUM CASSETTES

Typical Applications Include:

- Hygiene Kit
- Restoration Kit
- Cavity Prep Kit
- Endo Kit
- Crown & Bridge Kit

PRODUCT NUMBER	SIZE	CONFIGURATION	FEATURES
10-6505	7" x 4⅓" x 1⅓"	7 Instruments	Detachable Lid/Instrument Holders

Sklar is pleased to offer a full line of Care & Cleaning agents to disinfect, decontaminate, sterilize, lubricate and protect your stainless steel surgical instruments and equipment. For expert care of your surgical instruments at every stage of the cleaning process, trust Sklar to deliver the right cleaning agent for you.

3 EASY STEPS FOR THE CARE AND CLEANING OF YOUR INSTRUMENTS

1 DECONTAMINATION

Sklar Disinfectants are a pre-cleaner and disinfectant for the safe decontamination of soiled surgical instruments, medical and surgical equipment and inanimate surfaces including plastics, stainless steel, chrome, glass, Plexiglas and baked on painted surfaces.

Disinfectants are effective against a broad range of pathogens in as little as 2 minutes.

2 CLEANING

Sklar carries a complete line of effective detergents and enzymatics for cleaning, not only for your surgical instruments, but also metals, glassware, plastic and rubber. Available in your choice of powder, liquid concentrate or spray foams.

3 LUBRICATION

To guarantee extended life and performance of your surgical instruments, choose one of Sklar's lubricants or sprays as the final step in your instrument processing regimen. Specifically designed to protect against corrosion, rust and staining, Sklar offers several different types of lubricants to protect your investments.

SKLAR-CIDE™

HIGH LEVEL DISINFECTING/STERILIZING SOLUTION

Sporicidal • Bactericidal • Virucidal • Fungicidal

SKLAR-CIDE provides a safe and efficient means for the high-level disinfection or sterilization of medical, ophthalmic, dental and surgical devices including endoscopes and lensed instruments. It may be used as a standard soak solution or in automatic reprocessing units set at room temperature. Unlike other solutions, there is no need to increase the solution temperature to provide high-level disinfection in 25 minutes.

SKLAR-CIDE is a surfactant-free, activated glutaraldehyde liquid chemical sterilant and high-level disinfectant. Its active ingredient is glutaraldehyde in a nominal concentration of 3%. When the powdered activator is added, the solution turns green in color to indicate its readiness for use. In addition to the active ingredient, this ready-to-use solution contains buffers, wetting agents, and a rust and corrosion inhibitor and it has a pleasant fragrance.

SKLAR-CIDE produces high-level disinfection at room temperature in as little time as 25 minutes, and complete sterilization in 10 hours at room temperature.

- Reusable for 28 days instead of 14, safer and saves time and money.
- Surfactant free - Will not damage scope surfaces or cloud lenses.
- Can be used safely on all devices, including instruments and endoscopes. No need to stock several products.

KILLS MRSA AND H1N1 VIRUS

SKLAR SPRAY-ZYME™

SURGICAL INSTRUMENT PRE-CLEANER

Multi-Enzyme Based Instrument Presoak & Cleaner Foam Spray Cleaner

The newest product from Sklar for expert care of your surgical instruments. This multi-enzymatic spray creates a heavy foam which lasts for hours, keeping soiled instruments moist to avoid encrustation while also pre-cleaning prior to processing.

- Prevents Organic Encrustation - enzyme foam stops blood and bodily fluids from drying onto surgical instruments.
- No More Spills - messy spills between the operating room and central cleaning /processing department are eliminated.
- Neutral pH - safe and effective for stainless steel, tungsten carbide, aluminum and brass instruments.
- Bacteriostatic - microbiological control agents inhibit bacterial growth in the ready-to-use foam solution.
- Long Lasting Foam - saves time, foam lasts many hours after application.
- Multi-Enzymatic - contains a synergistic blend of lipase and protease enzymes.

SKLAR-ZYME™ POUCHES

CONVENIENT VALUE

Each pouch of SKLAR-ZYME produces one gallon of enzymatic detergent. This convenient, easy to use product guarantees very little waste and is ideal for the office or smaller surgical setting.

PRODUCT NUMBER	FEATURES	QUANTITIES
10-2774	½ oz. Pouches	32/box

SKLAR SOAK™

INSTRUMENT PRE-SOAK & DECONTAMINANT RUST RESISTANT!

Immersing soiled instruments in SKLAR SOAK effectively pre-cleans and decontaminates, without fear of rusting!

SKLAR SOAK is an effective pre-cleaner that breaks down bio-burden, lifting blood and other organic debris from the surface, while penetrating box locks and crevices. The rust inhibitor protects the delicate chromium oxide layer of the instrument, thus defending against rust and corrosion. Using SKLAR SOAK™ as a pre-cleaner is the first line of defense against rust, prolonging the life of the instrument and therefore protecting your investment!

Soaking for only two minutes thoroughly decontaminates instruments, reducing the risk of exposure to pathogens such as N1H1, MRSA, Salmonella, Parvo, Feline Leukemia, Herpes Simplex, Distemper, Ringworm, Strangles. However, because SKLAR SOAK™ contains a rust inhibitor, instruments may soak for several hours without fear of rusting! Employees are protected from cross contamination, and at the same time can enjoy the freedom to reprocess instruments when it's convenient!

SKLAR SOAK is ideal for use on all stainless steel instruments:

- PH balanced, designed specifically for stainless steel instruments.
- Intermediate level disinfectant with broad spectrum of efficacy.
- Rust resistant.
- Non-caustic.
- Ready to use.
- No special handling or disposal.
- Fragrant, no offensive odors.
- Non-glutaraldehyde.

PRODUCT NUMBER	FEATURES	QUANTITIES
10-1603	1 Gallon Bottles	4/case
10-1609	1 Gallon Bottle	1 bottle

SKLAR INSTRU-GUARD™ ONE STEP

A "ONE STEP" INSTRUMENT CLEANER AND LUBRICANT

EXTENDS INSTRUMENT LIFE!

SKLAR INSTRU-GUARD ONE STEP contains a penetrating lubricant that protects and helps extend the life of surgical instruments. The detergents and emulsifiers quickly break up and remove organic soils from box locks and other hard to reach places.

SKLAR INSTRU-GUARD ONE STEP contains four rust inhibitors to control corrosion and eliminate scaling and spotting. It does not contain phosphates and can reduce the time and cost involved in processing your instruments by cleaning and lubricating in one easy step.

PRODUCT NUMBER	FEATURES	QUANTITIES
10-2800	1 Gallon Bottles	4/case
10-2801	1 Gallon Bottle	1 bottle

SKLAR INSTRU-GUARD™ LUBE

SURGICAL INSTRUMENT LUBRICANT / RUST INHIBITOR

- Extends the Life of Instruments.
- Protects all Surgical Instruments.

SKLAR INSTRU-GUARD LUBE is an easy-to-use, water soluble, lubricant and rust inhibitor. When used daily as a rinse after every cleaning it keeps moving parts operating smoothly and remains effective after autoclaving, but without leaving an oily residue.

Regular lubrication is essential no matter which cleaning method is employed (including ultrasonic). SKLAR INSTRU-GUARD LUBE is ideal for maintaining instrument quality and performance.

PRODUCT NUMBER	FEATURES	QUANTITIES
10-1635	1 Gallon Containers Concentrated	4/case
10-1634	1 Gallon Container Concentrated	1 container
10-1636	8 oz. Spray Bottles	12/case

SKLAR KLEEN™

LOW FOAM, LIQUID DETERGENT AND POWDERED FORMULA

Regular Formula for Manual and Ultrasonic Cleaning

SKLAR KLEEN is non-corrosive, non aggressive, phosphate free and biodegradable. We have specifically developed SKLAR KLEEN for manual and ultrasonic cleaning. It is moderately alkaline, affording optimum cleaning without etching glassware or attacking instrument metal.

Low Foam Formula for Automatic Cleaning

The SKLAR KLEEN Low Foam Liquid is concentrated in order to provide a very cost-effective solution. It is especially formulated to maintain low foam, ensuring effective and trouble-free action in washer/sterilizers and tunnel washers. Dispersing quickly, the SKLAR KLEEN Low Foam formula is also well suited for automatic injection systems.

PRODUCT NUMBER	FEATURES	QUANTITIES
10-2701	Low Foam 1 Gallon Bottles	4/case

10-1627	Liquid 1 Gallon Bottle	1 bottle

SKLAR-SHEEN™

AUTOCLAVE AND INSTRUMENT CLEANER AND CONDITIONER

With an efficacious phosphoric acid cleaning agent, Sklar Sheen is a robust spot, stain and rust remover. Ideal for dissolving hard water deposits, use in autoclaves to quickly cut through steam sterilizer scale and deposits.

Verstile and effective, SKLAR SHEEN couples powerful stain and rust removers with corrosion inhibitors, making it tough on stains but gentle on instruments. Recondition instruments to restore them to nearly brand new working condition.

Use to clean and recondition any stainless steel surface to its original luster, including carts, trays and basins.

- Conditions for lasting protection.
- Dissolves hard water deposits.
- Frees up frozen box locks.
- Restores and extends surgical instrument life.

PRODUCT NUMBER	FEATURES	QUANTITIES
10-2730	Stain & Rust Remover	1 gallon bottle
10-2732	Stain & Rust Remover	4/case
10-2736	Spray Foam Autoclave Cleaner & Conditioner	22oz. bottle
10-2738	Spray Foam Autoclave Cleaner & Conditioner	12/case

SKLAR ENZYMATIC™ DETERGENT

MULTI-ENZYME DETERGENT CONCENTRATE

100% Biodegradable

SKLAR ENZYMATIC Detergent is a low-foaming, fast acting detergent specifically designed for use when instruments and/or cloth materials become soiled with organic debris.

SKLAR ENZYMATIC Detergent may be used as a manual instrument cleaner as well as a pre-soak for blood-contaminated linens, clothing and instruments. It is also used in ultrasonic units and in washer/sterilizer/decontaminators. When used as directed, the enzymatic pH neutral formula is safe for use on rubber, plastic, stainless steel instruments, and surgical equipment as well as cloth.

PRODUCT NUMBER	FEATURES	QUANTITIES
10-2777	1 Gallon Bottles	4/case
10-2775	1 Gallon Bottles	2/case
10-2776	1 Gallon Bottle	1 bottle

SKLAR STAT™

INSTANT FOAM HAND SANITIZER

KILLS 99% OF GERMS IN LESS THAN 15 SECONDS!

SKLAR-STAT Instant Foam Hand Sanitizer, based on the active ingredient Benzalkonium Chloride, is a unique formulation featuring exceptional skin feel, conditioning and moisturizing properties. The efficacy of this product has been confirmed to reduce *S. Aureus* 99.999% and *S. Aureus* MRSA 99.9% in as little as 15 seconds. SKLAR-STAT Instant Foaming Hand Sanitizer produces a fast drying, non-sticky foam that contains unique conditioning and moisturizing ingredients, leaving the skin with a soft, silky after-feel.

	Stainless Steel Bristle Cleaning Brush	1 each
	Nylon Bristle Cleaning Brush	1 each

TROUBLE SHOOTING

NO STEEL IS TRULY "STAINLESS"

It's a fact that so-called stainless steel is subject to both water-spotting and staining. However what many people identify as a "rust" problem usually turns out to be something else.

Most often the problem is actually a stain caused by a surface deposit. These deposits appear in a variety of colors depending upon the type of deposit involved. Once the cause is found and eliminated, most of the time the problem quickly diminishes or disappears completely.

As you probably know, stainless steel is ideally suited for the surgical suite because it is rust resistant, it can be honed to an extremely sharp edge or fine point,

and it can be hardened to maintain the delicate, yet precise, requirements of the surgeon. But it is this hardenable quality – the amount of carbon used during the manufacturing process – coupled with harsh chemicals and improper care that renders stainless steel susceptible to corrosion.

To protect your instrument investment, Sklar cleaning agents have been specifically formulated to provide cost effective instrument care solutions that help maintain the life and performance of your valuable stainless steel instruments.

TROUBLE SHOOTING

CORROSION

- Problem:** Debris and residue in box locks, serrations and ratchets.
- Solution:** Serrations, box locks and ratchets should be carefully cleaned and rinsed. A soft bristle brush is effective in these difficult areas.
- Problem:** Moisture remaining on the instruments within the sterile wrapped packs; excessive moisture in autoclave during sterilization and termination of cycle.
- Solution:** Preheat autoclave, drying time cannot be accelerated, open autoclave door slightly. Routinely inspect valves. Malfunctioning valves can precipitate corrosion.
- Problem:** Some local water supplies contain excessive quantities of alkali. This can manifest itself by depositing corrosive matter on the instruments.
- Solution:** It is generally accepted that cold distilled or demineralized water be used during sterilization. An alternative is to use the local water supply, while instituting a program of preventive maintenance. Carefully clean surfaces with SKLAR KLEEN™, using SKLAR POLISH™ to remove difficult stains and SKLAR LUBE™ for proper lubrication.

PITTING

- Problem:** Instruments are inevitably exposed to chemical compounds that initiate pitting. The most common are saline solutions and blood.
- Solution:** It is essential that instruments be rinsed with distilled or demineralized water and then cleaned routinely.
- Problem:** Some Non-Sklar detergents contain a chloride or have an acid base. If rinsing is not thorough, the residual detergent can precipitate pitting. Hydrochloric acid can be formed by the combination of chloride in the cleaner and steam, causing the instrument to pit.
- Solution:** Evaluate detergents without a chloride base. SKLAR KLEEN™ is recommended.
- Problem:** Instruments may be pitted when the detergent used has an excessively high pH. If instruments are not rinsed thoroughly and then autoclaved, the heat increases the effect of the solution on the instruments.
- Solution:** Use only detergents specifically developed for instrument cleaning. SKLAR KLEEN™ products are pH balanced.

BROWNISH STAIN

- Problem:** This stain is more obvious on dull finish instruments. Most likely, it is a deposit of chromium oxide. The thin hard layer protects stainless steel from corrosion precipitated by the atmosphere. The brownish film (sometimes dull blue) occurs naturally when stainless is heated. Occasionally this stain can be traced to the sterilizer. Improper cleaning compounds could contain poly phosphates that cause the copper components in the sterilizer to be deposited by electrolytic action on the stainless steel instruments.
- Solution:** Water supply to autoclave should be cold and demineralized. Use the correct amount of SKLAR KLEEN™ as recommended for best results.

BLUISH GRAY STAINS

- Problem:** Cold sterilizing solutions.
- Solution:** In the preparation of the solution make certain the manufacturer's directions are followed accurately. To minimize discoloration use distilled water and add a rust inhibitor. Using the solution beyond recommended time limitations will cause the solution to become corrosive.

RUST DEPOSIT

- Problem:** Sterilizing instruments of different metals in the same cycle will cause rusting. An electrolytic action carries the carbon particles from the exposed metal and deposits them on the stainless steel instruments. The rapid oxidation of molecules results in a surface film of rust.
- Solution:** The ideal technique would be to sterilize the two types of instruments separately. It is recommended that chrome plated instruments that indicate signs of peeling or flaking be replaced with stainless steel instruments.
- Problem:** The rust film on the surface of stainless steel instruments can be caused by chemicals in the detergent. Excess amounts of iron or other minerals from the local water supply may cause the rust deposits.
- Solution:** It is recommended that instruments be rinsed with distilled or demineralized water. Surface rust can be removed by light buffing or an application of SKLAR POLISH™.

LIGHT AND DARK COLORED SPOTS

- Problem:** Spotting caused by slow evaporation of water drops identified with the mineral content of the water.
- Solution:** Eliminate water droplets by adhering to autoclave manufacturer's operating instructions. Autoclave door should not be opened until steam has been completely vented.

09-0010

COMPACT 150 RODENT ANESTHESIA MACHINE

- Non-rebreathing anesthesia machine with O2 flush valve.
- Used on rodents, birds, and exotics.
- Ability to incorporate both induction chamber and anesthesia mask with Y-piece connection to anesthetize more than one patient.
- Vaporizer: Isoflurane or Sevoflurane Cagemount.
- 2-year warranty.

◀ COMPACT 150

09-0011

COMPACT MINI ANESTHESIA MACHINE

- Small, easy to use, non-rebreathing unit best for rodents, birds and exotics.
- Used throughout many research and laboratory settings.
- Ability to incorporate both induction chamber and anesthesia mask with Y-piece connection to anesthetize more than one patient.
- Vaporizer: Isoflurane or Sevoflurane Cagemount.
- 2-year warranty.

COMPACT MINI ▶

09-0012

PREMIER XP ANESTHESIA MACHINE

- Perfect for spaying, neutering, dental, emergency and pre-op induction procedures.
- Machine comes patient ready.
- Vaporizer: Isoflurane or Sevoflurane Selectatec.
- Optional: Bain circuit adaptor for non-rebreathing applications, top shelf, and e-tank holders.
- MRI compatible version also available.
- 5-year warranty.

◀ PREMIER XP

OPTIMAX ▶

09-0013

OPTIMAX ANESTHESIA MACHINE

- Sophisticated anesthesia workstation adapts to the needs of your facility.
- Vaporizer: Isoflurane or Sevoflurane Selectatec.
- Dual Vaporizer manifold with interlocking capability.
- Additional N₂O flow meter, air flow meter, and bain circuit adapter available.
- 5-year warranty.

◀ TITAN

09-0014

TITAN LARGE ANIMAL ANESTHESIA MACHINE

- Complete large animal anesthesia system with built-in ventilator.
- Ventilator is time-cycled, electronically controlled and pneumatically-powered.
- Dual vaporizer manifold with vapor exclusion system.
- Designed not to tip.
- Optional Foal Absorber.
- 3-year warranty.

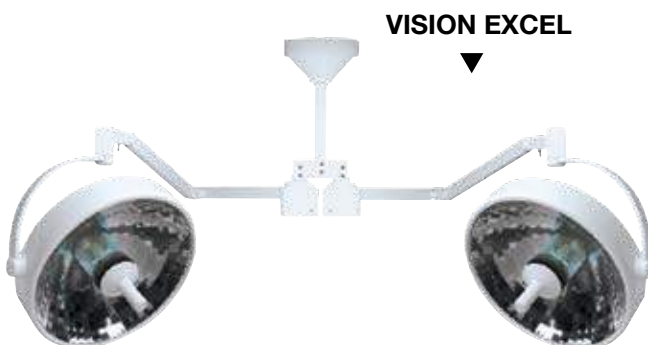

09-0015 AV800 ANESTHESIA VENTILATOR

- Ideal for research, university, emergency and critical care facilities.
- Time cycled and volume or pressure controlled.
- Flexible, easy to use ventilators with large LED displays for closed circuit or Mapleson D circuit.
- Includes 50-1600ml bellows as standard assembly.
- Features adjustable low and high pressure alarms, low tidal volume, incorrect rate or ratio, low battery, low drive gas pressure.
- 60 minute battery backup.
- 1 year warranty.

MAXX LUXX II

VISION EXCEL

VISTA

VORTEX

VISION LED

09-0020

MAXX LUXX II

- The MAXX LUXX II offers advanced features for demanding surgical environments at a cost far below comparable lights on the market.
- Surgery light provides cool, color-corrected light.
- 9,500 ft candles per head at one meter; 102,000 lux.
- Electronic touch controls for on/off and dimming.
- Auto-bulb change mechanism.
- Excellent shadow and focus control.
- Adjustable pattern sizes.
- 3-year warranty.

V-SERIES: SURGERY AND EXAM LIGHTS

Choose from compact and economic exam lights or full-featured, high performance operating room lighting. All V-Series Lights are available in ceiling, floor or wall mount configurations. Count on first-class surgery and exam quality lighting at reasonable cost.

09-0025

VISION EXCEL

- Surgery light features a larger reflector, higher output, a larger pattern and improved shadow control.
- 6,000 ft candles at one-meter distance; 64,500 lux.
- 3-year warranty.

09-0026

VISTA

- Flexible light ideal for dental procedures, the Vista has expanded the parameters of diagnostic and procedure lighting considerably.
- Compact size and cool, white light output.
- 4,000 ft candles; 43,000 lux.
- 3-year warranty.

09-0027

VORTEX

- Surgery spotlight creates a high intensity, focused light pattern.
- 2000 ft candles; 21,500 lux.
- 3-year warranty.

09-0028

VISION LED

- Designed for low heat and high efficiency.
- Consumes as little as half of the electricity of standard halogen lights, and can last as long as 50,000 hours.
- Produces rich color temperatures and provides excellent shadow reduction.
- Features 5-stage dimming and on/off switch control on sterilizable handle.
- 3-year warranty.

09-0030
OP TABLE

- High-end specialty procedure table designed for Ophthalmology and advanced Orthopedic surgery.
- Remote control height adjustment: 33.5" to 45".
- Power Trendelenburg and Reverse Trendelenburg to 15°.
- Power lateral tilt to 43°.
- 250 lb. weight capacity.
- Exclusive x-ray translucent sliding top.

09-0031
AERON TABLE

- Premium table designed for C-arm use and advanced surgical procedures.
- Remote control height adjustment: 31" to 43".
- Trendelenburg and Reverse Trendelenburg to 15°.
- C-arm compatible.
- X-ray translucent top measures 55" x 19.5".
- 250 lb. weight capacity.
- Select from Flat Top or fixed V-Top version.

09-0032
TREND TABLE

- State-of-the art surgery table great for dental and general surgery procedures.
- Electronic height adjustment: 28" to 40".
- Stainless steel top with drain: 51" x 23".
- One way longitudinal tilt that adjusts to an almost vertical position.
- 264 lb. weight capacity.

09-0033

EPT TABLE

- Exam/procedure table.
- Foot control electronic height adjustment from 12" to 40".
- Top measures: 51" x 23.5".
- 250 lb. load capacity.
- Available configurations: Stainless Steel or Synthetic Top.

09-0034

EDGE TABLE

- V-Top surgery table with built in drain trough and heavy duty hydraulic foot pump with brake.
- Stainless Steel table leaves can be positioned independently to create the perfect angle for various procedures.
- Fully adjustable from 29" high to 37" high.
- 360° revolving top, locks in any position.
- Extra heavy duty H-base with a durable FDA white baked powder epoxy finish.
- Accommodates up to 300 lbs.
- Heavy-duty floor levelers included.
- Included accessory rail on both sides for mounting needed accessories.
- Choose from 48" or 60" table top.
- Available with or without locking caster.

09-0035

ELEMENT PLUS TABLE

- Stable, versatile, cost efficient table ideal for veterinary exam procedure and surgery.
- Features marine edge to prevent fluid runoff.
- Heavy duty, foot operated hydraulic lift raises table from approximately 29" to 37" working level.
- 300 lb. weight capacity and 360° rotation.
- Table dimensions of 44" long x 22" deep.
- Available with your choice of stationary feet or locking castors.
- Optional pull out drawer, drain hole and pail hook available.

09-0040
WAVELINE PROVET

The Waveline ProVet can be used on small, medium, or large animals. An applicable monitor for veterinary surgical suites and research facilities.

- 15" Multi-parameter Monitor.
- Standard parameters: ECG, NIBP, SpO₂, 2x Temp, Respiration, Printer and Battery Backup.
- Optional: EtCO₂ (Mainstream or Sidestream).
- Optional: Suntech Blood Pressure upgrade.
- Optional: Nellcor SpO₂ upgrade.
- Includes all veterinary accessories with each parameter.
- CO₂ and IBP upgradable. Modules sold separately.
- 18-month warranty on monitor.

09-0041
WAVELINE TOUCHVET

The Waveline TouchVet can be used on small, medium, or large animals. An applicable monitor for veterinary hospitals and clinics performing general surgical procedures.

- 12.1" Touchscreen Multi-parameter Monitor.
- Standard parameters: ECG, NIBP, SpO₂, 2x Temp, Respiration, Printer and Battery Backup.
- Optional: EtCO₂ (Mainstream or Sidestream).
- Optional: Nellcor SpO₂ upgrade.
- Optional: Suntech Blood Pressure upgrade.
- Includes all veterinary accessories with each parameter.
- CO₂ and IBP upgradable. Modules sold separately.
- 18-month warranty on monitor.

09-0042
WAVELINE EZ

A convenient portable patient Monitor, the Waveline EZ can be used on small, medium and large animals (excluding rabbits, rats and small rodents). An applicable monitor for veterinary clinics, hospitals, universities or research facilities.

- 8" Touchscreen Multi-parameter Monitor.
- Standard parameters: ECG, Respiration, SpO₂, NIBP and temperature.
- Advanced ST and arrhythmia detection.
- Audible and visual alarms.
- QuickBP readings recall.
- Optional EtCO₂ (Mainstream or Sidestream) and Printer.
- Optional: Nellcor SpO₂ upgrade.
- Includes all veterinary accessories with each parameter.
- 18-month warranty.

SKLARLITE™

STERILIZATION CONTAINER SYSTEM

The SklarLite™ Rigid Sterilization Container System provides an organized, routine and secure approach to the sterilization of surgical instruments. Customize your SklarLite™ System by selecting colored lids and ID labels. Available in your choice of six vibrant colors for easy identification of instrument sets by procedure and/or department. Choose from various configurations to fit your needs.

VISIT OUR WEBSITE WWW.SKLARCORP.COM FOR MORE INFORMATION

The Tradition Continues

SKLAR-STAT™

Automatic Foam Dispenser

Motion activated, battery powered and wall-mounted, Sklar's Automatic Foam Dispenser allows for easy access and reduced risk of cross contamination. Ideal for use in hospitals, medical centers, offices, schools and any high-traffic public area with multiple users.
