SklarSpec™

Plastic Vaginal Specula, Light Source Style

Made of a smooth, clear polymer for patient comfort and 360° visibility. The SklarSpec Vaginal Speculum facilitates a light source for optimum visualization of the exam area. Dispose of immediately following exam to eliminate reprocessing as well as reduce the risk of cross-contamination to healthcare workers.

- Convenient Sizes
- Multiple Adjustment Options
- Single Use
- Latex Free, DEHP/BPA Free
- Light Source sold separately

A collection of various medical instruments is displayed on a dark, reflective surface. The instruments include: a pair of long-handled forceps with circular handles; a pair of surgical scissors; a scalpel with a black handle and a metal blade; a syringe with a clear barrel and a needle; a small, clear plastic container; and a pair of forceps with a serrated blade. The instruments are arranged in a somewhat haphazard manner, with some lying on white paper or plastic packaging. The lighting is bright, creating reflections on the dark surface.
